SUBJECT INDEX*

A

Acid, gastric, secretion, canine, effect of antigastrin on (Isaza et al.), 462
influence of thermal burns (O'Neill), 267
Adhesions, massive, in infancy, jejunoileocolic intubation and plication for intestinal obstruction caused by (Moore, Salzberg, and Talman), 364
Aged patient, aneurysmectomy in (Esselstyn et al.), 34
Allografted canine lungs, hemodynamics and blood gas exchange in (Momma et al.), 799
Allografts, kidney, incorporation of foreign DNA and RNA into, autoradiographic studies (Lemperle, Michaelis, and Wieczorek), 332
skin, intravascular, immunologic response to (Donawick and Baue), 667
Amniocentesis, new approach to some old problems in obstetrics (Thiede), 383
Amputation of leg, elevation of serum creatine kinase following (Penneys and Wilkinson), 302
limb, major, for vascular disease, mortality factors in, study of 176 procedures (Rosenberg et al.), 437
Anastomosis, microvascular, use in new operation for varicocele (Ishigami et al.), 620
Aneurysmectomy in aged (Esselstyn et al.), 34
Aneurysms, thoracic aortic, reappraisal of adjuncts to avoid in treatment of (Crawford et al.), 182
Angiography, selective, localization of gastrointestinal hemorrhage by (Frey, Reuter, and Bookstein), 548
Antibiotic(s), newer, and hospital-acquired infections (Pulaski), 370
preparation of the bowel for surgery, study of danger of (Thieme and Fink), 403
solution, local irrigation with, in prevention of infection in vascular prostheses (DiGiglia, Leonard, and Ochsner), 836
Antibody localization in horse, rabbit, and goat antilymphocyte sera (Kashiwagi et al.), 789
response, humoral, effects of phytohemagglutinin (Ono et al.), 322
Antigastrin, effect on canine gastric acid secretion (Isaza et al.), 462
Antigens, histocompatibility, extracted human, accelerated rejection of skin grafts in recipients sensitized with (Siegler, Mendes, and Metzgar), 261
Antilymphocyte sera, horse, rabbit, and goat, antibody localization in (Kashiwagi et al.), 789
Aortic arch atresia with transposition of great vessels, physiologic considerations and surgical management (Norton et al.), 1011

Aortic—Cont'd
ball valve design based upon healing and hydraulic considerations (Sauvage et al.), 151
catheterization, transvalvular, prolonged left ventricular bypass by, physiologic effects and rationale of surgical concept (Schuhmann, Geddes, and Hoff), 957
leaflet heterografts, humoral immunity against, demonstration (Pierce et al.), 328
Aortofemoral graft thrombosis, late, extra-abdominal management of (Cohn, Moore, and Hall), 775
Aortoiliac endarterectomy case series followed 10 years or more (Pilcher, Barker, and Cannon), 5
Appendicitis in newborn infant (Parsons, Miscall, and McSherry), 841
Appendix, diverticulosis (Esparza and Pan), 922
Arterial autografts (Stoney and Wylie), 5
catheterization, long-term, for repeated blood sampling (Moseley and Doty), 455
degeneration, proximal, in arteriovenous fistula (Sako and Varco), 40
embolectomy, 20 year experience with 163 cases (Thompson et al.), 212
graft, collagen, of bovine origin, 7 year observations in dog (Rosenberg et al.), 951
contralateral (Bialostozky et al.), 442
pressure, downstream cerebral, during carotid endarterectomy, effect of CO_2 and systemic hypertension (Ehrenfeld et al.), 87
reconstruction, microneurosurgical (Yasargil, Krayenbuhl, and Jacobson), 221
use of saphenous vein homografts for, preliminary report (Tice and Santoni), 493
Arterialization of liver with portacaval shunt in treatment of portal hypertension due to intrahepatic block (Maillard, Benhamou, and Rueff), 883
Arteriography as adjunct to diagnosis of splenic injury (Polin, Walklett, and Sayler), 313
Arteriovenous fistula: results of management of congenital and acquired forms, blood flow measurements, and observations on proximal arterial degeneration (Sako and Varco), 40
subcutaneous, new type for chronic hemodialysis in children (Pérez Alvarez et al.), 355
shunt implantation, improved surgical technique for, experiences with all-Silastic shunt (Aravena et al.), 593
vein graft for chronic hemodialysis, preliminary report (Mozes et al.), 452
Artery, completely severed, suppression of hemorrhage from, role of vasoconstriction (Wangensteen et al.), 338
coronary, direct revascularization, for segmental occlusive disease (Mundth et al.), 168

*January, pp. 1-248; February, pp. 249-402; March, pp. 403-560; April, pp. 561-726; May, pp. 727-882; June, pp. 883-1058.

Artery, coronary—Cont'd
–right ventricular fistula with congestive heart failure, surgical correction in neonatal period (Daniel, Graham, and Sabiston), 985
external iliac, occlusion in newborn infant (Salerno, Collins, and Redmond), 863
popliteal, cystic degeneration of (Powis, Morrissey, and Jones), 891
pulmonary, previous constriction (banding) of, repair of intracardiac defects after (Stark et al.), 536
renal, thrombosis following blunt trauma, report of 4 cases (Grablowsky et al.), 895
sole, to basal segments of left lung, high systemic origin of, findings, surgical treatment, and embryologic interpretation (Hessel et al.), 624
Atheroma, carotid bifurcation, natural history (Javid et al.), 80
Autografts, arterial (Stoney and Wylie), 5
femoropopliteal saphenous vein bypass, modifications in technique (Linton and Wilde), 234
Autoradiographic studies on incorporation of foreign DNA and RNA into kidney allografts (Lemperle, Michaelis, and Wieczorek), 332
Axillofemoral and femorofemoral grafts, compromise or preference (Parsonnet, Alpert, and Brief), 26

B

Ball valve design, aortic, based upon healing and hydraulic considerations (Sauvage et al.), 151
Battle injury, hypoxemia during first twelve hours after (Moseley and Doty), 765
Biliary manometry, role in clinical surgery (Schein and Beneventano), 255
tract calculi, residual, removal without reoperation (Mazzariello), 566
Blalock-Hanlon operation, emergency, in infants, in complete transposition of great vessels, surgical results (Zamora et al.), 706
Blood flow measurements in arteriovenous fistula (Sako and Varco), 40
gas exchange and hemodynamics in allografted canine lungs (Momma et al.), 799
heparinized priming, use after whole-body perfusion (Tarhan et al.), 584
sampling, repeated, long-term arterial catheterization for (Moseley and Doty), 455
viscosity in normal man (Litwin, Chapman, and Stoliar), 342
Bowel, antibiotic preparation for surgery, study of danger of (Thieme and Fink), 403
Breast lesions, palpable, role of mammography with (Sokol et al.), 748
Burned rat model, silver sulfadiazine and Sulfamylon Cream in, comparative evaluation (Dressler and Skornik), 644
Burns, thermal, influence on gastric acid secretion (O'Neill), 267

C

Calculi of biliary tract, residual, removal without reoperation (Mazzariello), 566
Cancer immunology and the surgeon (Morton), 396
Cancer—Cont'd
of papilla of Vater, early diagnosis, fiberduodenoscopy in (Oi, Takemoto, and Nakayama), 561
Carbohydrate metabolism and serum electrolytes during surface-induced deep hypothermia with prolonged circulatory occlusion (Rittenhouse, Mohri, and Merendino), 995
Carcinoma of thyroglossal duct cyst, case reports and review of literature (Bhagavan, Rao, and Weinberg), 281
Cardiac complications following myocardial infarction, operation for (Schimert et al.), 129
defects, repair of, after previous constriction (banding) of pulmonary artery (Stark et al.), 536
evaluation, importance of careful preoperative, in emergency separation of thoracopagus (Simpson et al.), 697
surgery, cardiovascular effects of glucagon following (Vaughn, Warner, and Nelson), 204
tamponade, acute hemodynamic alterations in, after penetrating injuries of heart (Shoemaker et al.), 748
valve, prosthetic, prevention of detachment (Fishman, Hutchinson, and Roe), 867
Cardiomyopathy, human heart transplantation for (Kahn et al.), 122
Cardiovascular effects of glucagon following cardiac surgery (Vaughn, Warner, and Nelson), 204
Care, intensive, bed for initial diagnosis and treatment of severely ill patients (Hill and Johnson), 414
Carotid bifurcation atheroma, natural history (Javid et al.), 80
endarterectomy, downstream cerebral arterial pressure during, effect of CO_2 and systemic hypertension (Ehrenfeld et al.), 87
Catheter embolism (Blair, Hunziker, and Flanagan), 457
Catheterization, arterial, long-term, for repeated blood sampling (Moseley and Doty), 455
Cephalothin, intraperitoneal, clinical use (McMullan and Barnett), 432
Cerebral arterial pressure, downstream, during carotid endarterectomy, effect of CO_2 and systemic hypertension (Ehrenfeld et al.), 87
Cervical thymus, undescended, thymoma arising from (Ridenhour et al.), 614
Cholesterol absorption following reversal of upper and lower halves of small intestine (Gebhard and Buchwald), 474
excretion following chronic ileal bypass (Schwartz, Moore, and Buchwald), 346
Circulatory occlusion, prolonged, with surface-induced deep hypothermia, carbohydrate metabolism and serum electrolytes during (Rittenhouse, Mohri, and Merendino), 995
Closure, early, of patent ductus arteriosus, case for (Kilman et al.), 197
CO_2 and systemic hypertension, effect on downstream cerebral arterial pressure during carotid endarterectomy (Ehrenfeld et al.), 87

XUM

Collagen arterial graft of bovine origin, 7 year observations in dog (Rosenberg et al.), 951
Colon, ascending, tuberculous stenosis of, massive megacolon and megaileum in childhood due to (Patton and Moore), 513
decompression with complete diversion of fecal stream by in situ colonic catheter, pilot study (Schulman, Pritham, and Polin), 918
Contusion, pulmonary, progressive nature of (Fulton and Peter), 499
Coronary arterial revascularization, direct, for segmental occlusive disease (Mundth et al.), 168
artery–right ventricular fistula with congestive heart failure, surgical correction in neonatal period (Daniel, Graham, and Sabiston), 985
Creatine kinase, serum, elevation following amputation of leg (Penneys and Wilkinson), 302
Cyst of thyroglossal duct, carcinoma of, case reports and review of literature (Bhagavan, Rao, and Weinberg), 281
Cystic degeneration of popliteal artery (Powis, Morrissey, and Jones), 891

D

Declamp shock production, vasodepressor factor in (Brant, Armstrong, and Vetto), 650
Decompression, portal, selective (Britton, Voorhees, and Price), 104
Delirium tremens, surgical, metabolic changes in (Mays, Ransdell, and DeWeese), 780
Dextrans, value in treatment of experimental pancreatitis (Wright and Goodhead), 807
Dimethyl sulfoxide, effect on pedicle flaps, experimental studies (Koehnlein and Lemperle), 672
Directional flow detection for localizing venous valvular incompetency (Folse and Alexander), 114
Diuretic agents, use of, during oliguria after renal transplantation (Anderson et al.), 249
Diverticulosis of appendix (Esparza and Pan), 922
DNA and RNA, foreign, incorporation into kidney allografts, autoradiographic studies (Lemperle, Michaelis, and Wieczorek), 332
Duodenal and gastric ulcer in infancy and childhood, surgery for (Strode and Balfour), 527
ulcer, perforated, long-term follow-up (Nemanich and Nicoloff), 727

E

Edema of scrotum, idiopathic, in young boys (Nicholas, Morgan, and Zachary), 847
Electrolytes, serum, and carbohydrate metabolism during surface-induced deep hypothermia with prolonged circulatory occlusion (Rittenhouse, Mohri, and Merendino), 995
Electromagnetic probe for quantitation of intracardiac flows (Williams et al.), 1031
Electrometry, surface, monitoring by, during storage interval, in successful 24 hour renal perfusion-preservation (Alexander et al.), 944
Embolectomy, arterial, 20 year experience with 163 cases (Thompson et al.), 212
Emboli, pulmonary, recurrent, following inferior vena caval plication (Coupland and Reeve), 639
Embolism, catheter (Blair, Hunziker, and Flanagan), 457
Endarterectomy, aortoiliac, case series followed 10 years or more (Pilcher, Barker, and Cannon), 5
carotid, downstream cerebral arterial pressure during, effect of CO_2 and systemic hypertension (Ehrenfeld et al.), 87
Endotoxin, intraperitoneal, in dog, lymphatic absorption of (Daniele et al.), 484
Epicardiectomy, effect on function and diastolic compliance of normal canine left ventricle (Hannah, Enright, and Reis), 831
Error, retrievable (editorial) (Derrick), 881
Esophageal mucosal regeneration following experimental prosthetic replacement of esophagus (Leininger, Peacock, and Neville), 468
replacement, gastric mobilization for, technique (Simkin and Stell), 1029
varices, bleeding, transabdominal ligation-resection of esophagus in cases of (Boerema, Klopper, and Holscher), 409
Esophagobronchial fistula, malignant, management (Ong and Kwong), 293
Esophagus, experimental prosthetic replacement, esophageal mucosal regeneration following (Leininger, Peacock, and Neville), 468
spontaneous rupture (Salinas Izaguirre, Haggerty, and Eckert), 607
transabdominal ligation-resection of, in cases of bleeding esophageal varices (Boerema, Klopper and Holscher), 409
traumatic pseudodiverticulum of, in newborn infant (Armstrong et al.), 844

F

Fecal stream, complete diversion by in situ colonic catheter, with decompression of colon, pilot study (Schulman, Pritham, and Polin), 918
Femoral-to-popliteal bypass grafts, method of salvaging bifurcated saphenous vein for use in (McDaniel and Johnson), 394
Femoral vein, common, ligation in treatment of thromboembolic disease, long-term sequelae (Nabatoff, Blum, and Touroff), 272
Femorofemoral and axillofemoral grafts, compromise or preference (Parsonnet, Alpert, and Brief), 26
Femoropopliteal bypass grafting, duplicated saphenous vein in (Gaylis), 277
saphenous vein bypass autografts, modifications in technique (Linton and Wilde), 234
Fiberduodenoscopy in early diagnosis of cancer of papilla of Vater (Oi, Takemoto, and Nakayama), 561
Fingers and hand, ischemia of, management (Dale and Lewis), 62

Fistula, arteriovenous: results of management of congenital and acquired forms, blood flow measurements, and observations on proximal arterial degeneration (Sako and Varco), 40
arteriovenous, new type subcutaneous, for chronic hemodialysis in children (Pérez Alvarez et al.), 355
coronary artery–right ventricle, with congestive heart failure, surgical correction in neonatal period (Daniel, Graham, and Sabiston), 985
malignant esophagobronchial, management (Ong and Kwong), 293
Flow, directional, detection, for localizing venous valvular incompetency (Folse and Alexander), 114
Fork in the road: geographic full-time system (editorial) (Egdahl), 878

G

Gallbladder, polyarteritis nodosa of (Remigio and Zaino), 427
primary malignant tumors of, report of 43 cases (Tanga and Ewing), 418
Gastrectomy, subtotal, and vagotomy plus partial gastrectomy, critical analysis of results from, in surgical treatment of peptic ulcer (Ochsner, Zehnder, and Trammell), 1017
Gastrin, placental transfer in canine fetus (Bruckner, Snow, and Fonkalsrud), 360
Gastric acid secretion, canine, effect of antigastrin on (Isaza et al.), 462
influence of thermal burns (O'Neill), 267
and duodenal ulcer in infancy and childhood, surgery for (Strode and Balfour), 527
duplication, improved operative technique for (White and Morgan), 522
hypothermia, local, in gastroduodenal hemorrhage (Petrov and Korenev), 574
mobilization for esophageal replacement, technique (Simkin and Stell), 1029
secretion in canine fetus following maternal stimulation (Bruckner, Snow, and Fonkalsrud), 360
Gastroduodenal hemorrhage, local gastric hypothermia in (Petrov and Korenev), 574
Gastroesophageal sphincter mechanism, studies of, role of phrenoesophageal membrane (Bremner, Schlegel, and Ellis), 735
Gastrointestinal hemorrhage, localization of, by selective angiography (Frey, Reuter, and Bookstein), 548
Gastroschisis defect, intrauterine midgut strangulation in (Grosfeld and Clatworthy), 519
Geographic full-time system (editorial) (Egdahl), 878
Glucagon, cardiovascular effects of, following cardiac surgery (Vaughn, Warner, and Nelson), 204
dissociation of hyperglycemic and vascular effects of (Tibblin, Kock, and Schenk), 816
Graft(s), aortofemoral, thrombosis, late, extra-abdominal management of (Cohn, Moore, and Hall), 775
arterial, collagen, of bovine origin, 7 year observations in dog (Rosenberg et al.), 951
contralateral (Bialostozky et al.), 442
Grafts—Cont'd
femorofemoral or axillofemoral, compromise or preference (Parsonnet, Alpert, and Brief), 26
femoropopliteal bypass, duplicated saphenous vein in (Gaylis), 277
skin, accelerated rejection of, in recipients sensitized with extracted human histocompatibility antigens (Seigler, Mendes, and Metzgar), 261
vein, arteriovenous, for chronic hemodialysis, preliminary report (Mozes et al.), 452

H

Hand and fingers, ischemia of, management (Dale and Lewis), 62
Healing and hydraulic considerations, aortic ball valve design based upon (Sauvage et al.), 151
Heart, acute penetrating injuries of, hemodynamic alterations in acute cardiac tamponade after (Shoemaker et al.), 748
human, transplantation for cardiomyopathy (Kahn et al.), 122
Hemodialysis, chronic, arteriovenous vein graft for, preliminary report (Mozes et al.), 452
in children, new type subcutaneous arteriovenous fistula for (Pérez Alvarez et al.), 355
influence on myocardial depressant factor in hemorrhagic shock (Wangensteen et al.), 935
Hemodynamic alterations in acute cardiac tamponade after penetrating injuries of heart (Shoemaker et al.), 748
and results of treatment in patients with gram-negative septic shock (Motsay et al.), 577
Hemodynamics and blood gas exchange in allografted canine lungs (Momma et al.), 799
Hemoptysis, massive, pulmonary resection for (Garzon et al.), 633
Hemorrhage from completely severed artery, role of vasoconstriction (Wangensteen et al.), 338
gastroduodenal, local gastric hypothermia in (Petrov and Korenev), 574
gastrointestinal, localization of, by selective angiography (Frey, Reuter, and Bookstein), 548
Hemorrhagic shock, influence of hemodialysis on myocardial depressant factor in (Wangensteen et al.), 935
Hemostasis during liver resections (Clark and Leather), 556
Heparinized priming blood, use after whole-body perfusion (Tarhan et al.), 584
Hepatic parenchyma, control by direct compression, new instrument (Doty, Kugler, and Moseley), 720
Hernia in inguinal region, diagnosis of, value of pneumoperitoneum in (Arner and Fernström), 741
Heterografts, aortic leaflet, humoral immunity against, demonstration (Pierce et al.), 328
Histamine, placental transfer in canine fetus (Bruckner, Snow, and Fonkalsrud), 360

XUM

Histocompatibility antigens, extracted human, accelerated rejection of skin grafts in recipients sensitized with (Seigler, Mendes, and Metzgar), 261
Homograft rejection, effects of phytohemagglutinin (Ono et al.), 322
saphenous vein, use of, for arterial reconstruction, preliminary report (Tice and Santoni), 493
Homotransplantation, auxiliary, of porcine liver into retroperitoneal space (Novak et al.), 678
Hospitals, spread of infections in (Sandusky), 372
Humoral antibody response, effects of phytohemagglutinin (Ono et al.), 322
immunity against aortic leaflet heterografts, demonstration (Pierce et al.), 328
Hydraulic and healing considerations, aortic ball valve design based upon (Sauvage et al.), 151
Hyperglycemic and vascular effects of glucagon, dissociation of (Tibblin, Kock, and Schenk), 816
Hypersensitivity, delayed, effects of phytohemagglutinin (Ono et al.), 322
Hypertension, portal, due to intrahepatic block, arterialization of liver with portacaval shunt in treatment of (Maillard, Benhamou, and Rueff), 883
systemic, and CO_2, effect on downstream cerebral arterial pressure during carotid endarterectomy (Ehrenfeld et al.), 87
Hypertrophy, compensatory, of gut, adaptation of functioning and bypassed segments of ileum during (Tilson and Wright), 687
Hypothermia, deep, surface-induced, carbohydrate metabolism and serum electrolytes during, with prolonged circulatory occlusion (Rittenhouse, Mohri, and Merendino), 995
gastric, local, in gastroduodenal hemorrhage (Petrov and Korenev), 574
Hypoxemia during first twelve hours after battle injury (Moseley and Doty), 765

I

Iliac artery, external, occlusion in newborn infant (Salerno, Collins, and Redmond), 863
Ileal bypass, chronic, cholesterol excretion following (Schwartz, Moore, and Buchwald), 346
Ileum, functioning and bypassed segments, adaptation of, during compensatory hypertrophy of gut (Tilson and Wright), 687
Immunity, humoral, against aortic leaflet heterografts, demonstration (Pierce et al.), 328
Immunologic response to intravascular skin allografts (Donawick and Baue), 667
Immunology, cancer, and the surgeon (Morton), 396
Immunosuppressive therapy, current status (Mannick), 711
Infarction, myocardial, cardiac complications following, operation for (Schimert et al.), 129
Infection(s), hospital-acquired, and newer antibiotics (Pulaski), 370
prophylaxis and management (Altemeier et al.), 369
spread of, in hospitals (Sandusky), 372
Inguinal region, hernia in, diagnosis of, value of pneumoperitoneum in (Arner and Fernström), 741
Insulin, placental transfer in canine fetus (Bruckner, Snow, and Fonkalsrud), 360
Insurance, National Health, considerations regarding coming of (Mueller), 1035
Intensive care bed for initial diagnosis and treatment of severely ill patients (Hill and Johnson), 414
unit flow sheet (Kramer and Lipson), 590
Intestinal obstruction caused by massive adhesions in infancy, jejunoileocolic intubation and plication for (Moore, Salzberg, and Talman), 364
strangulation in rats monocontaminated with *Sphaerophorus necrophorus* (Yale and Dowell), 478
Intestine, small, reversal of upper and lower halves, cholesterol absorption following (Gebhard and Buchwald), 474
Intracardiac flows, quantitation of, electromagnetic probe for (Williams et al.), 1031
Intubation, jejunoileocolic, and plication for intestinal obstruction caused by massive adhesions in infancy (Moore, Salzberg, and Talman), 364
Ischemia of hand and fingers, management (Dale and Lewis), 62
reappraisal of adjuncts to avoid, in treatment of thoracic aortic aneurysms (Crawford et al.), 182
Isolation techniques and their effectiveness (Burke), 373

J

Jejunoileocolic intubation and plication for intestinal obstruction caused by massive adhesions in infancy (Moore, Salzberg, and Talman), 364

K

Kidney allografts, incorporation of foreign DNA and RNA into, autoradiographic studies (Lemperle, Michaelis, and Wieczorek), 332
preservation, functional and biochemical changes during (Lotke and Schwartz), 488
Kinase, serum creatine, elevation following amputation of leg (Penneys and Wilkinson), 302

L

Leg, amputation, elevation of serum creatine kinase following (Penneys and Wilkinson), 302
Letters to the Editors, 401
Limb amputations, major, for vascular disease, mortality factors in, study of 176 procedures (Rosenberg et al.), 437
Liver, arterialization of, with portacaval shunt in treatment of portal hypertension due to intrahepatic block (Maillard, Benhamou, and Rueff), 883
disease, effect on need for venous decompression during anhepatic phase of canine orthotopic liver transplantation (Picache, Kapur, and Starzl), 319

Liver—Cont'd
porcine, auxiliary homotransplantation of, into retroperitoneal space (Novak et al.), 678
resection, asanguineous, vena cava catheter for (Chávez-Peón, Gonzalez, and Malt), 694
hemostasis during (Clark and Leather), 556
transplantation, canine orthotopic, need for venous decompression during anhepatic phase, effect of liver disease on (Picache, Kapur, and Starzl), 319
Lung(s), canine, allografted, hemodynamics and blood gas exchange in (Momma et al.), 799
left, basal segments, high systemic origin of sole artery to, findings, surgical treatment, and embryologic interpretation (Hessel et al.), 624
Lymphatic absorption of intraperitoneal endotoxin in dog (Daniele et al.), 484
Lymphocyte, circulating, depletion, effect on lymphoid tissue (Fish et al.), 658
on renal allograft survival in calves (Fish et al.), 969
Lymphoid tissue, effect on, of circulating lymphocyte depletion (Fish et al.), 658

M

Malignant esophagobronchial fistula, management (Ong and Kwong), 293
tumors, primary, of gallbladder, report of 43 cases (Tanga and Ewing), 418
Mammography, role of, with palpable breast lesions (Sokol et al.), 748
Manometer for monitoring central venous pressure, simple and accurate (Moss), 773
Manometry, biliary, role in clinical surgery (Schein and Beneventano), 255
Mediastinitis, anterior, as complication of median sternotomy incisions, diagnostic and surgical considerations (Jiménez-Martínez et al.), 929
Megacolon and megaileum, massive, in childhood, due to tuberculous stenosis of ascending colon (Patton and Moore), 513
Megaileum and megacolon, massive, in childhood, due to tuberculous stenosis of ascending colon (Patton and Moore), 513
Metabolic changes in surgical delirium tremens (Mays, Ransdell, and DeWeese), 780
Microneurosurgical arterial reconstruction (Yasargil, Krayenbuhl, and Jacobson), 221
Midgut strangulation, intrauterine, in gastroschisis defect (Grosfeld and Clatworthy), 519
Mortality factors in major limb amputations for vascular disease, study of 176 procedures (Rosenberg et al.), 437
Mucosal, esophageal, regeneration following experimental prosthetic replacement of esophagus (Leininger, Peacock, and Neville), 468
Muscle, skeletal, pH, responses to injury, new technique for determination of tissue viability (Berman, Lemieux, and Aaby), 507
Myocardial contractility, clinical and experimental use of thoracic impedance plethysmography in quantifying (Siegel et al.), 907
Myocardial—Cont'd
depressant factor in hemorrhagic shock, influence of hemodialysis on (Wangensteen et al.), 935
infarction, cardiac complications following, operation for (Schimert et al.), 129

N

Newborn infant, appendicitis in (Parsons, Miscall, and McSherry), 841
external artery occlusion in (Salerno, Collins, and Redmond), 863
traumatic pseudodiverticulum of esophagus in (Armstrong et al.), 844

O

Obstetrics, new approach to some old problems: amniocentesis (Thiede), 383
Obstruction, intestinal, caused by massive adhesions in infancy, jejunoileocolic intubation and plication for (Moore, Salzberg, and Talman), 364
Oliguria after renal transplantation, use of diuretic agents during (Anderson et al.), 249

P

Pacific-wide view of surgery (Robb), 558
Pancreatitis, experimental, value of dextrans in treatment of (Wright and Goodhead), 807
Papilla of Vater, cancer of, early diagnosis of, fiberduodenoscopy in (Oi, Takemoto, and Nakayama), 561
Parenchyma, hepatic, control by direct compression, new instrument (Doty, Kugler, and Moseley), 720
Patent ductus arteriosus, case for early closure (Kilman et al.), 197
Pedicle flaps, effect of dimethyl sulfoxide on, experimental studies (Koehnlein and Lemperle), 672
Peptic ulcer, surgical treatment (Ochsner, Zehnder, and Trammell), 1017
Perfusion, splenic, prolonged, technique (Atkins, Trimble, and Eiseman), 306
Peritoneal irrigation, diagnostic, simple and reliable technique (Civetta, Williams, and Richie), 874
2-Phenyl-2-(2-pyridyl)-thioacetamide (antigastrin), effect on canine gastric acid secretion (Isaza et al.), 462
Phrenoesophageal membrane, role of, in gastroesophageal sphincter mechanism (Bremner, Schlegel, and Ellis), 735
Phytohemagglutinin, effects on humoral antibody response, delayed hypersensitivity, and homograft rejection (Ono et al.), 322
Placental transfer of insulin, histamine, and gastrin in canine fetus (Bruckner, Snow, and Fonkalsrud), 360
Plethysmography, thoracic impedance, clinical and experimental use, in quantifying myocardial contractility (Siegel et al.), 907
Plication and jejunoileocolic intubation for intestinal obstruction caused by massive adhesions in infancy (Moore, Salzberg, and Talman), 364

XUM

Pneumoperitoneum, value of, in diagnosis of hernia in inguinal region (Arner and Fernström), 741
Polyarteritis nodosa of gallbladder (Remigio and Zaino), 427
Polyelectrolyte complexes, sulfonated, synthetic thromboresistant surfaces from (Nelsen et al.), 826
Popliteal artery, cystic degeneration of (Powis, Morrissey, and Jones), 891
Portacaval shunt and arterialization of liver in treatment of portal hypertension due to intrahepatic block (Maillard, Benhamou, and Rueff), 883
prophylactic, conclusions from controlled trial (Callow et al.), 97
Portal decompression, selective (Britton, Voorhees, and Price), 104
hypertension due to intrahepatic block, arterialization of liver with portacaval shunt in treatment of (Maillard, Benhamou, and Rueff), 883
Potassium vasoactivity, biphasic effect (Boley et al.), 350
Presidential address (Society for Vascular Surgery): Standards in vascular surgery (Hanlon), 1
Prostheses, vascular, infection in, local irrigation with antibiotic solution in prevention of (DiGiglia, Leonard, and Ochsner), 836
Prosthetic cardiac valve detachment, prevention (Fishman, Hutchinson, and Roe), 867
transplantation of inferior vena cava, total, with venous drainage restoration of the one remaining kidney on the graft, successfuliy performed on child with Wilms' tumor (Sarti), 851
Pseudodiverticulum of esophagus, traumatic, in newborn infant (Armstrong et al.), 844
Pulmonary artery, previous constriction (banding) of, repair of intracardiac defects after (Stark et al.), 536
contusion, progressive nature of (Fulton and Peter), 499
emboli, recurrent, following inferior vena caval plication (Coupland and Reeve), 639
resection for massive hemoptysis (Garzon et al.), 633

R

Renal allograft survival in calves, effect of circulating lymphocyte depletion (Fish et al.), 969
artery thrombosis following blunt trauma, report of 4 cases (Grablowsky et al.), 895
infundibulum, superior, vascular obstruction of, in children (Deckers et al.), 856
perfusion-preservation, 24 hour, successful, with monitoring by surface electrometry during storage interval (Alexander et al.), 944
transplantation, oliguria after, use of diuretic agents during (Anderson et al.), 249
Retroperitoneal space, auxiliary transplantation of porcine liver into (Novak et al.), 678
Revascularization, direct coronary arterial, for segmental occlusive disease (Mundth et al.), 168
RNA and DNA, foreign, incorporation into kidney allografts, autoradiographic studies (Lemperle, Michaelis, and Wieczorek), 332

S

Saphenous vein, bifurcated, method of salvaging, for use in femoral-to-popliteal bypass grafts (McDaniel and Johnson), 394
bypass autografts, femoropopliteal, modifications in technique (Linton and Wilde), 234
duplicated, in femoropopliteal bypass grafting (Gaylis), 277
homografts, use of, for arterial reconstruction, preliminary report (Tice and Santoni), 493
Scapulectomy, indications and technique (Das Gupta), 601
Scoliosis and acute vascular compression of duodenum (Bunch and Delaney), 901
Scrotum, idiopathic edema of, in young boys (Nicholas, Morgan, and Zachary), 847
Segmental occlusive disease, direct coronary arterial revascularization for (Mundth et al.), 168
Sepsis, survival or death from (Clowes), 374
Septic shock, gram-negative, hemodynamic alterations and results of treatment in patients with (Motsay et al.), 577
Severely ill patients, initial diagnosis and treatment of, intensive care bed for (Hill and Johnson), 414
Shock production, declamp, vasodepressor factor in (Brant, Armstrong, and Vetto), 650
septic, gram-negative, hemodynamic alterations and results of treatment in patients with (Motsay et al.), 577
Shunt, arteriovenous, implantation, improved surgical technique for, experiences with all-Silastic shunt (Aravena et al.), 593
portacaval, and arterialization of liver in treatment of portal hypertension due to intrahepatic block (Maillard, Benhamou, and Rueff), 883
prophylactic, conclusions from controlled trial (Callow et al.), 97
Silastic shunt, experiences with, in arteriovenous shunt implantation (Aravena et al.), 593
Silver sulfadiazine and Sulfamylon Cream in burned rat model, comparative evaluation (Dressler and Skornik), 644
Skeletal muscle pH, responses to injury, new technique for determination of tissue viability (Berman, Lemieux, and Aaby), 507
Skin allografts, intravascular, immunologic response to (Donawick and Baue), 667
grafts, accelerated rejection of, in recipients sensitized with extracted human histocompatibility antigens (Seigler, Mendes, and Metzgar), 261
Sphaerophorus necrophorus, intestinal strangulation in rats monocontaminated with (Yale and Dowell), 478
Sphincter mechanism, gastroesophageal, studies of, role of phrenoesophageal membrane (Bremner, Schlegel, and Ellis), 735

Splenic injury, diagnosis, arteriography as adjunct (Polin, Walklett, and Sayler), 313
perfusion, prolonged, technique (Atkins, Trimble, and Eiseman), 306
Sternotomy, median, incisions, anterior mediastinitis as complication of, diagnostic and surgical considerations (Jiménez-Martínez et al.), 929
Strangulation, intestinal, in rats monocontaminated with *Sphaerophorus necrophorus* (Yale and Dowell), 478
intrauterine midgut, in gastroschisis defect (Grosfeld and Clatworthy), 519
Sulfadiazine, silver, and Sulfamylon Cream in burned rat model, comparative evaluation (Dressler and Skornik), 644
Sulfamylon Cream and silver sulfadiazine in burned rat model, comparative evaluation (Dressler and Skornik), 644
Sulfoxide, dimethyl, effect on pedicle flaps, experimental studies (Koehnlein and Lemperle), 672
Surgeon, cancer immunology and (Morton), 396
Surgery, Pacific-wide view of (Robb), 558
Surgical care, delivery, experiments in (Eiseman et al.), 725
training, crisis in (Meyerowitz), 399

T

Tamponade, cardiac, acute, hemodynamic alterations in, after penetrating injuries of heart (Shoemaker et al.), 748
Temperature, body, monitoring, via tympanic membrane (Dickey, Ahlgren, and Stephen), 981
Testis, torsion of, in newborn infant (Michaelian, Mahour, and Johnston), 703
Thermal burns, influence on gastric acid secretion (O'Neill), 267
Thoracic aortic aneurysms, reappraisal of adjuncts to avoid ischemia in treatment (Crawford et al.), 182
impedance plethysmography, clinical and experimental use, in quantifying myocardial contractility (Siegel et al.), 907
Thoracopagus, emergency separation in newborn period, importance of careful preoperative cardiac evaluation (Simpson et al.), 697
Thrombocytosis, postoperative, reduction of (Atkins and Lempke), 976
Thromboembolic disease, common femoral vein ligation in treatment, long-term sequelae (Nabatoff, Blum, and Touroff), 272
Thromboresistant surfaces, synthetic, from sulfonated polyelectrolyte complexes (Nelsen et al.), 826
Thrombosis, late aortofemoral graft, extra-abdominal management of (Cohn, Moore, and Hall), 775
of renal artery following blunt trauma, report of 4 cases (Grablowsky et al.), 895
Thymoma arising from undescended cervical thymus (Ridenhour et al.), 614
Thymus, cervical, undescended, thymoma arising from (Ridenhour et al.), 614
Thyroglossal duct cyst, carcinoma of, case reports and review of literature (Bhagavan, Rao, and Weinberg), 281
Tissue viability, new technique for determination (Berman, Lemieux, and Aaby), 507
Training, surgical, crisis in (Meyerowitz), 399
Transplantation, liver, canine orthotopic, need for venous decompression during anhepatic phase, effect of liver disease on (Picache, Kapur, and Starzl), 319
Tumor(s), malignant, primary, of gallbladder, report of 43 cases (Tanga and Ewing), 418
Wilms', total prosthetic transplantation of inferior vena cava in child with (Sarti), 851
Tuberculous stenosis of ascending colon, massive megacolon and megaileum in childhood due to (Patton and Moore), 513
Tympanic membrane, body temperature monitoring via (Dickey, Ahlgren, and Stephen), 981

U

Ulcer, duodenal and gastric, in infancy and childhood, surgery for (Strode and Balfour), 527
perforated, long-term follow-up (Nemanich and Nicoloff), 727
peptic, surgical treatment (Ochsner, Zehnder, and Trammell), 1017

V

Vagotomy, incomplete, adequate, permanence of, preliminary study in dogs (Legros and Griffith), 654
plus partial gastrectomy and subtotal gastrectomy, critical analysis of results from, in surgical treatment of peptic ulcer (Ochsner, Zehnder, and Trammell), 1017
Valve replacement, late results (Rees et al.), 141
Valvular incompetency, venous, directional flow detection for localizing (Folse and Alexander), 114
Varices, esophageal, bleeding, transabdominal ligation-resection of esophagus in cases of (Boerema, Klopper, and Holscher), 409
Varicocele, new operation for, use of microvascular anastomosis (Ishigami et al.), 620
Varicose veins, ligation, stripping, and excision (Dale), 389
Vascular compression, acute, of duodenum and scoliosis (Bunch and Delaney), 901
disease, major limb amputations for, mortality factors in, study of 176 procedures (Rosenberg et al.), 437
and hyperglycemic effects of glucagon, dissociation of (Tibblin, Kock, and Schenk), 816
obstruction of superior renal infundibulum in children (Deckers et al.), 856
protheses, infection in, local irrigation with antibiotic solution in prevention of (DiGiglia, Leonard, and Ochsner), 836
surgery, standards in (Hanlon), 1
Vasoconstriction, role in suppression of hemorrhage from completely severed artery (Wangensteen et al.), 338
Vasodepressor factor in declamp shock production (Brant, Armstrong, and Vetto), 650
Vater, papilla of, cancer of, early diagnosis of, fiberduodenoscopy in (Oi, Takemoto, and Nakayama), 561

XUM

Vein(s), femoral, common, ligation in treatment of thromboembolic disease, long-term sequelae (Nabatoff, Blum, and Touroff), 272
graft, arteriovenous, for chronic hemodialysis, preliminary report (Mozes et al.), 452
saphenous, bifurcated, method of salvaging, for use in femoral-to-popliteal bypass grafts (McDaniel and Johnson), 394
bypass autografts, femoropopliteal, modifications in technique (Linton and Wilde), 234
duplicated, in femoropopliteal bypass grafting (Gaylis), 277
homografts, use of, for arterial reconstruction, preliminary report (Tice and Santoni), 493
varicose, ligation, stripping, and excision (Dale), 389
Vena cava catheter for asanguineous liver resection (Chávez-Peón, Gonzalez, and Malt), 694
inferior, total prosthetic transplantation of, in child with Wilms' tumor (Sarti), 851
caval plication, inferior, recurrent pulmonary emboli following (Coupland and Reeve), 639
Venous decompression, need for, during anhepatic phase of canine orthotopic liver transplantation, effect of liver disease on (Picache, Kapur, and Starzl), 319
Venous—Cont'd
pressure, central, manometer for monitoring, simple and accurate (Moss), 773
monitor (Vidne, Levinson, and Levy), 279
valvular incompetency, directional flow detection for localizing (Folse and Alexander), 114
Ventricle, canine, left, normal, effect of epicardiectomy on function and diastolic compliance (Hannah, Enright, and Reis), 831
right–coronary artery, fistula with congestive heart failure, surgical correction in neonatal period (Daniel, Graham, and Sabiston), 985
Ventricular bypass, left, prolonged, by transvalvular aortic catheterization, physiologic effects and rationale of surgical concept (Schuhmann, Geddes, and Hoff), 957
Vessels, great, complete transposition of, surgical results of emergency Blalock-Hanlon operation in infants (Zamora et al.), 706
transposition of, with aortic arch atresia, physiologic considerations and surgical management (Norton et al.), 1011
Viscosity, blood, in normal man (Litwin, Chapman, and Stoliar), 342

W

Wilms' tumor, total prosthetic transplantation of inferior vena cava in child with (Sarti), 851

SUBJECT INDEX*

A

Abdominal aortic aneurysms, risk of excision of (Baker et al.), 1129
Abscess, splenic, the surgical significance of (Pickleman, Paloyan, and Block), 287
Acid(s), amino, essential, intravenous, and hypertonic glucose, treatment with: renal failure in surgical patients (Dudrick, Steiger, and Long), 180
  gastric, inhibitor, cerebral release of (Reigel, Larson, and Sances), 217
  nucleic, synthesis in regenerating liver by azathioprine, modification of (Gonzalez, Krejczy, and Malt), 254
Adrenal medullary calcitonin-like factor: key to multiple endocrine neoplasia, type 2? (Kaplan et al.), 146
Adrenalectomy, bilateral, inflammatory carcinoma of breast treated by (Yonemoto et al.), 461
Adrenergic responses compromising the effectiveness of artificial circulatory support, carotid sinus origin of (Harrison et al.), 20
Air embolism during open-heart surgery, prevention of: study of role of trapped air in left ventricle (Taber, Maraan, and Tomatis), 685
  trapped, in left ventricle, study of role of: prevention of air embolism during open-heart surgery (Taber, Maraan, and Tomatis), 685
Albumin losses in bile after partial hepatectomy (Butterfield, Penn, and Thomford), 651
Alcoholic withdrawal, acute, fluid restriction in the management of (Balsano and Reynolds), 283
Alimentary tract in children, intramural hematomas of (Stewart, Byrd, and Schuster), 550
Allograft recipients by leukocyte and kidney cell phenotyping, selection of (Kountz et al.), 69
  rejection, renal, simulated by arterial stenosis (Simmons et al.), 800
  renal, function and test skin grafts in human subjects genotyped for HL-A, correlations of (Seigler et al.), 86
Alloxan diabetes, problems in producing (Pemberton and Manax), 375
Amino acids, intravenous essential, and hypertonic glucose, treatment with: renal failure in surgical patients (Dudrick, Steiger, and Long), 180
Anastomoses, intrahepatic biliodigestive, in dogs (de Boer, Downie, and Archibald), 646
  vascular, growing and adult primary, new absorbable synthetic suture in (Dardik et al.), 1112
Anatomy, gross, taught by department of surgery (Halasz et al.), 231
Anesthesia, regional, neurological complications of prevertebral surgery under (Usubiaga, Kolodny, and Usubiaga), 304
Aneurysms, abdominal aortic, risk of excision of (Baker et al.), 1129
  popliteal (Wychulis, Spittell, and Wallace), 942
Angiographic and functional classifications, preoperative, used as prognostic guides: results in 96 aortoiliac reconstructive procedures (Imparato et al.), 610
Anorectal anomalies, new method of roentgenological demonstration of (Murugasu), 706
Antibiotic instillation, local, in extremity wounds, evaluation of (Seidenstein et al.), 809
Antibodies, humoral, and coagulation mechanisms in accelerated or hyperacute rejection of renal homografts in sensitized canine recipients (Simpson et al.), 77
Anticoagulant therapy, significant complications of (Macon, Morton, and Adams), 571
Antigen, polyvalent Pseudomonas, treatment of experimental burn wound sepsis by postburn immunization with (Nance et al.), 248
Anti-human antilymphoblast globulin, forced flow electrophoretic purification of (Moberg et al.), 862
Antilymphoblast globulin, anti-human, forced flow electrophoretic purification of (Moberg et al.), 862
Antithymocyte globulin, large-dose intravenous, in primates and man, experience with (Cosimi et al.), 54
Antrectomy, vagotomy-, and vagotomy-pyloroplasty, current reflections on (editorial) (Herrington), 587
Aorta, distal, to foot (entire lower extremity tree), technique for simultaneous x-ray visualization without a film changer (Moss and Wendth), 617
Aortic aneurysms, abdominal, risk of excision of (Baker et al.), 1129
  cross-clamping, etiology of venous thrombi after, electron microscopic study (Ashford), 846
  occluder: new instrument (Nobis), 805
  valve replacement: new techniques, hydrodynamics, and clinical results (Messmer et al.), 1026
    with pulmonary valve autograft: indications and surgical technique (Gonzales-Lavin, Geens, and Ross), 450
  surgery, elective use of balloon obstruction in (Robicsek, Daugherty, and Mullen), 774
Aortofemoral arterial prosthesis, infected, treatment of (Diethrich et al.), 1044
Aortoiliac reconstructive procedures, 96, results in: preoperative angiographic and functional classifications used as prognostic guides (Imparato et al.), 610
Archibald, Edward, and William Rienhoff, Jr.: fathers of the modern pneumonectomy —an historical footnote (White), 397

*July, pp. 1-276; August, pp. 277-430; September, pp. 431-590, October, pp. 591-752; November, pp. 753-926; December, pp. 927-1158.

Arterial emboli: analysis of 125 patients (Levy and Butcher), 968
prosthesis, infected aortofemoral, treatment of (Diethrich et al.), 1044
stenosis, renal allograft rejection simulated by (Simmons et al.), 800
surgery, experiences with modified bovine carotid arteries in (Rosenberg et al.), 1064
tree (distal aorta to foot), entire lower, technique for simultaneous x-ray visualization without a film changer (Moss and Wendth), 617
and venous replacement, use of small-diameter Dacron grafts with wall-bonded heparin for: canine studies and preliminary clinical experience (Najjar and Gott), 1053
Artery(ies), minute, successful replacement of (Overton and Owen), 713
modified bovine carotid, in arterial surgery, experiences with (Rosenberg et al.), 1064
occlusion, transient femoral, clinical and biochemical observations of the effect in man (Fisher, Fogarty, and Morrow), 323
renal, reconstruction, new method of (Belzer et al.), 619
new techniques in treatment of extensive fibromuscular disease involving (Fry, Brink, and Thompson), 959
Assay, immunosuppressive, of antilymphoblast globulin in man: effect of dose, histocompatibility, and serologic response to horse gamma globulin (Simmons et al.), 62
Atresia, pulmonary, with hypoplastic right ventricle, pulmonary valvotomy in (Moller et al.) 630
Atrial pacemaker, technique for permanent implantation (Nusbaum and Levit), 916
Autograft, pulmonary valve, aortic valve replacement with: indications and surgical technique (Gonzales-Lavin, Geens, and Ross), 450
Axillofemoral grafts, late results of (Mannick, Williams, and Nabseth), 1038
Azathioprine, inhibition of experimental cardiac hypertrophy by (Levitsky et al.) 536
modification of nucleic acid synthesis in regenerating liver by (Gonzalez, Krejczy, and Malt), 254
Azygos circulation time and mechanism of varix rupture in portal hypertension (Hassab), 442

B

Bacteremia, *E. coli*, hyperlipidemia and pulmonary fat embolism in dogs with (Groves et al.), 656
Bacteriology, quantitative, of biliary tract, endogenous source for wound infections based on (Robson, Bogart, and Heggers), 471
Balloon catheter, improved, for removal of vascular clots (Klieman), 806
obstruction in aortic surgery, elective use of (Robicsek, Daugherty, and Mullen), 774
Barrett's esophagus: congenital or acquired? experimental study of esophageal mucosal regeneration in dog (Bremner, Lynch, and Ellis), 209
Bile after partial hepatectomy, albumin losses in (Butterfield, Penn, and Thomford) 651
as a suspending medium and its relationship to gallstone formation, studies of, (Ostrowitz and Gardner), 329
Biliary-enteric fistulas, spontaneous (Porter, Mullen, and Silver), 597
Biliary tract, endogenous source for wound infections based on quantitative bacteriology of (Robson, Bogart, and Heggers), 471
Biliodigestive anastomoses, intrahepatic, in dogs (de Boer, Downie, and Archibald), 646
Biochemical and clinical observations of the effect of transient femoral artery occlusion in man (Fisher, Fogarty, and Morrow), 323
Blood-borne factors in pulmonary response to sepsis (acute experimental peritonitis) (Farrington et al.), 136
Blood flow, compromised cephalic, and subclavian steal, effects on cerebral circulation (Eklöf and Schwartz), 431
coronary, and left ventricular function, effect of left heart bypass on (Sato and Glenn), 314
increased gastric, hyperacidity, and acute gastric ulceration, cause of: mesenteric ischemia (Boley et al.), 222
mesenteric, after hemorrhage in anesthetized and unanesthetized dogs (Roding and Schenk), 857
loss in orthopedic operations: comparative studies in 19 major orthopedic procedures utilizing radioisotope labeling and an automatic blood volume computer (Gardner), 489
pump, efficient, compact, for assisted circulation (Bernstein et al.), 105
supply of experimental liver metastases: microcirculatory study of normal and tumor vessels of the liver with use of perfused silicone rubber (Lien and Ackerman), 334
volume computer, automatic, and radioisotope labeling comparative studies in 19 major orthopedic procedures utilizing (Gardner), 489
Bovine carotid arteries, modified, in arterial surgery, experiences with (Rosenberg et al.), 1064
Bowel perforation after exchange transfusion in neonate: review of literature and report of case (Caralps-Riera and Cohn), 895
small, resection, massive, in the beagle, including laboratory data in severe undernutrition (Cuthbertson et al.), 698
resection or pancreatic duct ligation, influence of dietary fat on gastric secretory response to (Landor, Wild, and Behringer), 831
Breast cancer in a 10-year-old girl (Lippitt, Medart, and Ramsey), 395
treated by bilateral adrenalectomy, inflammatory carcinoma of (Yonemoto et al.), 461
Bronchogenic carcinoma, nonmetastatic extrapulmonary manifestations of (Sealy), 906
Bundle of Kent, identification and division for premature ventricular excitation and supraventricular tachycardia (Sealy, Boineau, and Wallace), 1009
Burn deaths in developing country, probit analysis of (Ramirez et al.), 813
treatment, recent advances in (Pruitt), 412

XUM

Burn—Cont'd
wound sepsis, experimental, treatment by postburn immunization with polyvalent Pseudomonas antigen (Nance et al.), 248
Bypass, femorotibial, technique of (Tyson and Reichle), 730
heart, left, effect on left ventricular function and coronary blood flow (Sato and Glenn), 314
nonreversed saphenous vein, for femoral-popliteal occlusive disease (Connolly and Stemmer), 602
partial ileal, in pediatric population, cholesterol reduction in (Buchwald et al.), 1101
pulsatile cardiopulmonary: clinical evaluation (Trinkle et al.), 1074
total cardiopulmonary, in puppies: pulmonary studies (Visudh-Arom, Miller, and Castaneda), 878
type of heart assist device, peristaltic: acute hemodynamic studies (Takano et al.), 676

C

Calcitonin-like factor, adrenal medullary: key to multiple endocrine neoplasia, type 2? (Kaplan et al.), 146
Calorie expenditure following injury, contribution of protein to (Duke et al.), 168
Cancer, breast, in a 10-year-old girl (Lippitt, Medart, and Ramsey), 395
gastric—decrescent malignancy (Crumb, Willetts, and Stephenson), 277
end results of gastrectomy for: effect of extensive lymph node dissection (Mine et al.), 753
Cannulation, peripheral vascular, new thin-walled nonkinking catheter for (Kolobow and Zapol), 625
Carbon dioxide, mixed venous, measurement using rebreathing techniques in surgical patients, determination of ventilatory insufficiency by (Baue, Hiremath, and Blakemore), 477
Carcinoma, bronchogenic, nonmetastatic extrapulmonary manifestations of (Sealy), 906
inflammatory, of breast treated by bilateral adrenalectomy (Yonemoto et al.), 461
Cardiac hypertrophy, experimental, inhibition by azathioprine (Levitsky et al.), 536
operations, 1,136 consecutive, postoperative infections in (Baffes et al.), 791
sympathetic reinnervation, pharmacologic quantitation of (Ebert and Sabiston), 123
valves, prosthetic, in vivo cinephotographic analysis of hydrodynamics of (Padula et al.), 1018
Cardiopulmonary bypass, pulsatile: clinical evaluation (Trinkle et al.), 1074
total, in puppies: pulmonary studies (Visudh-Arom, Miller, and Castaneda), 878
Cardiovascular effects of glucagon in intact anesthetized and hepatectomized dog (Pappas, Guillen, and Aldrete), 363
Carnitine levels in severe infection and starvation: possible key to prolonged catabolic state (Border et al.), 175
Carotid arteries, modified bovine, in arterial surgery, experiences with (Rosenberg et al.), 1064
sinus origin of adrenergic responses compromising the effectiveness of artificial circulatory support (Harrison et al.), 20
Catabolic state, prolonged, possible key to: carnitine levels in severe infection and starvation (Border et al.), 175
Catheter, Eichelter, in patients, early experience with use of: removable intracaval filter for prevention of pulmonary embolism (Williams and Schenk), 999
improved balloon, for removal of vascular clots (Klieman), 806
pacemaker, stubborn (Wallace, Sherafat, and Blakemore), 914
new thin-walled nonkinking, for peripheral vascular cannulation (Kolobow and Zapol), 625
Caval ligation, late results of (Piccone et al.), 980
Cell, kidney, and leukocyte phenotyping, selection of allograft recipients by (Kountz et al.), 69
Central nervous functions and hemorrhagic shock: spinal and spino-bulbo-spinal reflexes (Mori and Simeone), 870
non, nervous system animal, preparation and performance of (White et al.), 48
Cephalic blood flow, compromised, and subclavian steal, effects on cerebral circulation (Eklöf and Schwartz), 431
Cerebral circulation, effects of subclavian steal and compromised cephalic blood flow on (Eklöf and Schwartz), 431
release of gastric acid inhibitor (Reigel, Larson, and Sances), 217
Chemotherapy, radiotherapy, and hepatic lobectomy for hepatoblastoma in an infant: report of survival (Hermann and Lonsdale), 383
Cholecystitis, serum glutamic oxalacetic transaminase activity in (Adams, Clermont, and Schwartz), 492
Choledochal cysts, primary excision of (Ishida et al.), 884
Cholesterol reduction by partial ileal bypass in pediatric population (Buchwald et al.), 1101
Cinephotographic analysis, in vivo, of hydrodynamics of prosthetic cardiac valves (Padula et al.), 1018
Circulatory support, artificial, carotid sinus origin of adrenergic responses compromising effectiveness of (Harrison et al.), 20
total, coronary flow and heart work during: surgery for acute myocardial infarction (Skinner et al.), 128
Cirrhosis, hepatic, dimethylnitrosamine-induced: new canine model of ancient human disease (Madden, Gertman, and Peacock), 260
Circulation, assisted, efficient, compact blood pump for (Bernstein et al.), 105
cerebral, effects of subclavian steal and compromised cephalic blood flow on (Eklöf and Schwartz), 431
time, azygos, and mechanism of varix rupture in portal hypertension (Hassab), 442
Clamps, rubber-shod, rubber bands as replacement for (Partington), 737
Clinical and biochemical observations of the effect of transient femoral artery occlusion in man (Fisher, Fogarty, and Morrow), 323
Clots, vascular, improved balloon catheter for removal of (Klieman), 806
Coagulation abnormalities associated with liver transplantation (Howland et al.), 591
intravascular—reality or myth? (Attar et al.), 27

Coagulation—Cont'd
mechanisms and humoral antibodies in accelerated or hyperacute rejection of renal homografts in sensitized canine recipients (Simpson et al.), 77
in primates, effects of hepatic ischemia on: application to liver transplantation (Dinbar, Rangel, and Fonkalsrud), 269
Computer, automatic blood volume, and radioisotope labeling, comparative studies in 19 major orthopedic procedures utilizing: blood loss in orthopedic operations (Gardner), 489
-based clinical assessment, research, and education system to facilitate continuing education in the care of the critically ill patient (Siegel et al.), 238
Congenital esophageal stenosis, use of pericardium for esophagoplasty in (Vidne and Levy), 389
heart disease, cyanotic, palliative surgery of infants with (Edwards and Bargeron), 931
Coronary blood flow and left ventricular function, effect of left heart bypass on (Sato and Glenn), 314
flow and heart work during total circulatory support: surgery for acute myocardial infarction (Skinner et al.), 128
vasodilator, effect on development of irreversible hemorrhagic shock (Jones et al.), 356
Counts, leukocyte, value in recognition of mesenteric infarction and strangulation of shorter intestinal lengths: experimental study (Ghanem et al.), 635
Cross-clamping, aortic, etiology of venous thrombi after: electron microscopic study (Ashford), 846
Cyanotic congenital heart disease, palliative surgery of infants with (Edwards and Bargeron), 931
Cyst(s), choledochal, primary excision of (Ishida et al.), 884
duplication, of duodenum: case report and discussion (Soper and Selke), 562

D

Dacron grafts, small-diameter, use with wall-bonded heparin for venous and arterial replacement: canine studies and preliminary clinical experience (Najjar and Gott), 1053
Deaths, burn, in developing country, probit analysis of (Ramirez et al.), 813
Decompression, portal, new procedure for: omphalocaval shunt (Sobel et al.), 456
Diabetes, alloxan, problems in producing (Pemberton and Manax), 375
mellitus, neuropathy of sympathetic nervous system associated with (Ozeran et al.), 953
Diagnosis and preparation, preoperative—a symposium (Holubitsky et al.), 724
Digital ischemia, posttraumatic: hypothenar hammer syndrome (Conn, Bergan, and Bell), 1122
Dimethylnitrosamine-induced hepatic cirrhosis: new canine model of ancient human disease (Madden, Gertman, and Peacock), 260
Disease, ancient human, new canine model of: dimethylnitrosamine-induced hepatic cirrhosis (Madden, Gertman, and Peacock), 260
Disease—Cont'd
cyanotic congenital heart, palliative surgery of infants with (Edwards and Bargeron), 931
extensive fibromuscular, involving renal arteries, new techniques in treatment of (Fry, Brink, and Thompson), 959
femoral-popliteal occlusive, nonreversed saphenous vein bypass for (Connolly and Stemmer), 602
Distal aorta to foot (entire lower extremity arterial tree), technique for simultaneous x-ray visualization without a film changer (Moss and Wendth), 617
Diverticulum, Meckel's, visualization with ^{99m}Tc-pertechnetate (Jewett, Duszynski, and Allen), 567
Dose, histocompatibility, and serologic response to horse gamma globulin, effect of: immunosuppressive assay of antilymphoblast globulin in man (Simmons et al.), 62
large-, intravenous antithymocyte globulin in primates and man, experience with (Cosimi et al.), 54
Drainage, postsplenectomy, and its significance, observations on (Reynolds), 783
Drapes, plastic, in open-skin grafting (Rybka and Paletta), 585
Duct ligation, pancreatic, or small bowel resection, influence of dietary fat on gastric secretory response to (Landor, Wild, and Behringer), 831
thoracic, lymph flow: theoretical concept (El-Gendi and Zaky), 786
Duodenal pressure as factor in cause of pancreatitis (Rosato, Cowan, and Rosato), 837
Duodenum, duplication cyst of: case report and discussion (Soper and Selke), 562
Duplication cyst of the duodenum: case report and discussion (Soper and Selke), 562

E

Education, continuing, in the care of the critically ill patient, a computer-based clinical assessment, research, and education system to facilitate (Siegel et al.), 238
graduate medical, moves to the university (editorial) (Mueller), 426
research, and assessment system, computer-based clinical, to facilitate continuing education in the care of the critically ill patient (Siegel et al.), 238
surgical, as bridge between basic and clinical services (editorial) (Peacock), 741
undergraduate, a panel discussion on: the surgeon's definition of a core (Jordan et al.), 403
Eichelter catheter in patients, early experience with use of: removable intracaval filter for prevention of pulmonary embolism (Williams and Schenk), 999
Electrical stimulation of phrenic nerve, further experience with: electrically induced fatigue (Sato et al.), 817
Electrically induced fatigue: further experience with electrical stimulation of phrenic nerve (Sato et al.), 817
Electrophoretic purification, forced flow, of anti–human antilymphoblast globulin (Moberg et al.), 862
Ellison, Edwin H., M.D. (Carey), 751
Emboli, arterial: analysis of 125 patients (Levy and Butcher), 968

XUM

Embolism, air, during open-heart surgery, prevention of: study of role of trapped air in left ventricle (Taber, Maraan, and Tomatis), 685
pulmonary fat, and hyperlipidemia in dogs with *E. coli* bacteremia (Groves et al.), 656
in postoperative patient, prospective analysis of (Allgood et al.), 116
removable intracaval filter for prevention of: early experience with use of Eichelter catheter in patients (Williams and Schenk), 999
Endocrine neoplasia, multiple, type 2, a key to: adrenal medullary calcitonin-like factor (Kaplan et al.), 146
Endogenous source for wound infections based on quantitative bacteriology of the biliary tract (Robson, Bogart, and Heggers), 471
Endotoxic activity and *Escherichia coli* infection, enhancement by hemoglobin and ferric ammonium citrate (Bornside, Bouis, and Cohn), 350
Endotoxin, *E. coli*, effect on mitochondrial energy-linked functions (Mela et al.), 541
shock, hepatic ultrastructural response to (Rangel et al.), 503
Energy-linked functions, mitochondrial, effect of *E. coli* endotoxin on (Mela et al.), 541
Enteric, biliary-, fistulas, spontaneous (Porter, Mullen, and Silver), 597
Enterocolitis, necrotizing, of premature infants (Dénes et al.), 558
Esophageal mucosal regeneration, an experimental study of Barrett's esophagus: congenital or acquired? (Bremner, Lynch, and Ellis), 209
stenosis, congenital, use of pericardium for esophagoplasty in (Vidne and Levy), 389
Esophagoplasty in congenital esophageal stenosis, use of pericardium for (Vidne and Levy), 389
Esophagus, Barrett's: congenital or acquired? experimental study of esophageal mucosal regeneration in dog (Bremner, Lynch, and Ellis), 209
spontaneous rupture of: review with reports of six cases (Bennett, Deveridge, and Wright), 766
Escherichia coli bacteremia, hyperlipidemia and pulmonary fat embolism in dogs with (Groves et al.), 656
endotoxin, effect on mitochondrial energy-linked functions (Mela et al.), 541
infection and endotoxic activity, enhancement by hemoglobin and ferric ammonium citrate (Bornside, Bouis, and Cohn), 350
Excitation, premature ventricular, and supraventricular tachycardia, identification and division of bundle of Kent for (Sealy, Boineau, and Wallace), 1009
Extrapulmonary manifestations, nonmetastatic manifestations of brochogenic carcinoma (Sealy), 906

F

Faculty, medical school, report on role of economic motivation in performance of (Maloney), 1
Fat, dietary, influence on gastric secretory response to pancreatic duct ligation or small bowel resection (Landor, Wild, and Behringer), 831
Fat—Cont'd
pulmonary, embolism and hyperlipidemia in dogs with *E. coli* bacteremia (Groves et al.), 656
Fatigue, electrically induced: further experience with electrical stimulation of phrenic nerve (Sato et al.), 817
Fecal incontinence, artificial control of (Stanley), 852
peritonitis, prolonged peritoneal lavage in (Perkash et al.), 842
Femoral artery occlusion, transient, clinical and biochemical observations of the effect in man (Fisher, Fogarty, and Morrow), 323
-popliteal occlusive disease, nonreversed saphenous vein bypass for (Connolly and Stemmer), 602
vein dynamics on development of varicose veins, influence of (Folse), 974
Femorotibial bypass, technique of (Tyson and Reichle), 730
Ferric ammonium citrate and hemoglobin, enhancement of *Escherichia coli* infection and endotoxic activity by (Bornside, Bouis, and Cohn), 350
Fibromuscular disease, extensive, involving renal arteries, new techniques in treatment of (Fry, Brink, and Thompson), 959
Film changer, technique for simultaneous x-ray visualization of the entire lower extremity tree (distal aorta to foot) without (Moss and Wendth), 617
Filter, removable intracaval, for prevention of pulmonary embolism: early experience with use of Eichelter catheter in patients (Williams and Schenk), 999
Fistula(s), biliary-enteric, spontaneous (Porter, Mullen, and Silver), 597
recurrent tracheoesophageal: diagnostic problem (Kafrouni, Baick, and Woolley), 889
Flow, compromised cephalic blood, and subclavian steal, effects on cerebral circulation (Eklöf and Schwartz), 431
coronary, and heart work during total circulatory support: surgery for acute myocardial infarction (Skinner et al.), 128
forced, electrophoretic purification of anti–human antilymphoblast globulin (Moberg et al.), 862
increased gastric blood, hyperacidity, and acute gastric ulceration, cause of: mesenteric ischemia (Boley et al.), 222
lymph, thoracic duct: theoretical concept (El-Gendi and Zaky), 786
mesenteric blood, after hemorrhage in anesthetized and unanesthetized dogs (Roding and Schenk), 857
Fluid restriction in the management of acute alcoholic withdrawal (Balsano and Reynolds), 283
Fluorocarbon, oxygen-saturated inert, for organ perfusion-preservation, liquid-liquid oxygenator utilizing (Pitzele et al.), 1079
Foot, distal aorta to (entire lower extremity tree), technique for simultaneous x-ray visualization without a film changer (Moss and Wendth), 617
"Full-time system" revisited (editorial) (Ballinger), 919
Functional and angiographic classifications, preoperative, used as prognostic guides: results in 96 aortoiliac reconstructive procedures (Imparato et al.), 610

Functions, central nervous, and hemorrhagic shock: spinal and spino-bulbo-spinal reflexes (Mori and Simeone), 870
mitochondrial energy-linked, effect of *E. coli* endotoxin on (Mela et al.), 541

G

Gallbladder in childhood, acute hydrops of (Chamberlain and Hight), 899
Gallstone formation, studies of bile as a suspending medium and its relationship to (Ostrowitz and Gardner), 329
Gamma globulin, horse, effect of dose, histocompatibility, and serologic response to: immunosuppressive assay of antilymphoblast globulin in man (Simmons et al.), 62
Gastrectomy for gastric cancer, end results of: effect of extensive lymph node dissection (Mine et al.), 753
Gastric acid inhibitor, cerebral release of (Reigel, Larson, and Sances), 217
blood flow, increased, hyperacidity, and acute gastric ulceration, cause of: mesenteric ischemia (Boley et al.), 222
cancer—descrescent malignancy (Crumb, Willetts, and Stephenson), 277
end results of gastrectomy for: effect of extensive lymph node dissection (Mine et al.), 753
hypersecretion associated with portacaval shunt, site of origin of hormone responsible for (Orloff et al.), 202
resection, segmental, with and without pyloroplasty, treatment of benign gastric ulcer by (Amdrup, Nielsen, and Jensen), 759
secretory response to pancreatic duct ligation or small bowel resection, influence of dietary fat on (Landor, Wild, and Behringer), 831
ulcer, benign, treatment by segmental gastric resection with and without pyloroplasty (Amdrup, Nielsen, and Jensen), 759
ulceration, acute, increased gastric blood flow, and hyperacidity, cause of: mesenteric ischemia (Boley et al.), 222
Gastrin, immunochemical measurement of vagal release of (Jaffe, McGuigan, and Newton), 196
Gastrointestinal hemorrhage, associated, Turner's syndrome with: a case report (Schultz, Assimacopoulos, and Lillehei), 485
Globulin, anti–human antilymphoblast, forced flow electrophoretic purification of (Moberg et al.), 862
antilymphoblast, in man, immunosuppressive assay of: effect of dose, histocompatibility, and serologic response to horse gamma globulin (Simmons et al.), 62
antithymocyte, large-dose intravenous, in primates and man, experience with (Cosimi et al.), 54
gamma, horse, effect of dose, histocompatibility, and serologic response to: immunosuppressive assay of antilymphoblast globulin in man (Simmons et al), 62
Glucagon in intact anesthetized and hepatectomized dog, cardiovascular effects of (Pappas, Guillen, and Aldrete), 363
Glucose, hypertonic, and intravenous essential amino acids, treatment with: renal failure in surgical patients (Dudrick, Steiger, and Long), 180
Graduate medical education moves to the university (editorial) (Mueller), 426
Grafts, axillofemoral, late results of (Mannick, Williams, and Nabseth), 1038
small-diameter Dacron, use with wall-bonded heparin for venous and arterial replacement: canine studies and preliminary clinical experience (Najjar and Gott), 1053
test skin, and renal allograft function in human subjects genotyped for HL-A, correlations of (Seigler et al.), 86
Gross anatomy taught by a department of surgery (Halasz et al.), 231

H

Hamartomas of liver (Shah, Goldsmith, and Huvos), 778
Heart assist device, peristaltic bypass type of: acute hemodynamic studies (Takano et al.), 676
bypass, left, effect on left ventricular function and coronary blood flow (Sato and Glenn), 314
disease, cyanotic congenital, palliative surgery of infants with (Edwards and Bargeron), 931
open-, surgery, prevention of air embolism during: study of role of trapped air in left ventricle (Taber, Maraan, and Tomatis), 685
pumping, continuous prolonged artificial, device facilitating (Akutsu, Takagi, and Farish), 369
work and coronary flow during total circulatory support: surgery for acute myocardial infarction (Skinner et al.), 128
Hematomas, intramural, of alimentary tract in children (Stewart, Byrd, and Schuster), 550
Hemodynamic and metabolic effects of secretin and pancreozymin on pancreas (Frogge, Hermreck, and Thal), 498
studies, acute: peristaltic bypass type of heart assist device (Takano et al.), 676
Hemoglobin, affinity for oxygen: its control and in vivo significance (Miller et al.), 187
and ferric ammonium citrate, enhancement of *Escherichia coli* infection and endotoxic activity by (Bornside, Bouis, and Cohn), 350
Hemorrhage in anesthetized and unanesthetized dogs, mesenteric blood flow in (Roding and Schenk), 857
changes in canine venous volume and pressure during (Kerr and Kirklin), 520
gastrointestinal, associated, Turner's syndrome with: a case report (Schultz, Assimacopoulos, and Lillehei), 485
Hemorrhagic shock, acute respiratory pathophysiology after (Bryant, Trinkle, and Dubilier), 512
in baboons, serum insulin response in (Moss et al.), 34
and central nervous functions: spinal and spino-bulbo-spinal reflexes (Mori and Simeone), 870
experimental, pulmonary oxygen toxicity in (Greenfield, McCurdy, and Coalson), 662
irreversible, effect of coronary vasodilator on development of (Jones et al.), 356
Heparin, wall-bonded, for venous and arterial replacement, use of small-diameter Dacron grafts with: canine studies and preliminary clinical experience (Najjar and Gott), 1053

XUM

Hepatectomy, partial, albumin losses in bile after (Butterfield, Penn, and Thomford), 651
Hepatic cirrhosis, dimethylnitrosamine-induced: new canine model of ancient human disease (Madden, Gertman, and Peacock), 260
ischemia, effects on coagulation in primates: application to liver transplantation (Dinbar, Rangel, and Fonkalsrud), 269
lobectomy, chemotherapy, and radiotherapy for hepatoblastoma in an infant: report of survival (Hermann and Lonsdale), 383
ultrastructural response to endotoxin shock (Rangel et al.), 503
Hepatitis, chronic active: possible adverse effects of exploratory laparotomy (Hargrove), 771
Hepatoblastoma in an infant, chemotherapy, radiotherapy, and hepatic lobectomy for: report of survival (Hermann and Lonsdale), 383
Histocompatibility, dose, and serologic response to horse gamma globulin, effect of: immunosuppressive assay of antilymphoblast globulin in man (Simmons et al.), 62
HL-A, correlations of test skin grafts and renal allograft function in human subjects genotyped for (Seigler et al.), 86
Homografts, renal, in sensitized canine recipients, humoral antibodies and coagulation mechanisms in accelerated or hyperacute rejection of (Simpson et al.), 77
Homotransplantation, renal, perirenal lymphocele as complication of (Madura, Dunbar, and Cerilli), 310
Hormone responsible for gastric hypersecretion associated with portacaval shunt, site of origin of (Orloff et al.), 202
Human life, price of (editorial) (Litwin), 429
Humoral antibodies and coagulation mechanisms in accelerated or hyperacute rejection of renal homografts in sensitized canine recipients (Simpson et al.), 77
Hydatid disease of the lung in children, late results of conservative surgical procedures in (Tsakayiannis, Pappis, and Moussatos), 379
Hydrodynamics, new techniques, and clinical results: aortic valve replacement (Messmer et al.), 1026
of prosthetic cardiac valves, in vivo cinephotographic analysis of (Padula et al.), 1018
Hydrops, acute, of gallbladder in childhood (Chamberlain and Hight), 899
Hyperacidity, acute gastric ulceration, and increased gastric blood flow, cause of: mesenteric ischemia (Boley et al.), 222
Hyperalimentation, a fatal complication: case report (Raffensperger and Ramenofsky), 393
Hyperlipidemia and pulmonary fat embolism in dogs with *E. coli* bacteremia (Groves et al.), 656
Hypersecretion, gastric, associated with portacaval shunt, site of origin of the hormone responsible for (Orloff et al.), 202
Hypertension, portal, azygos circulation time and mechanism of varix rupture in (Hassab), 442
Hypertonic glucose and intravenous essential amino acids, treatment with: renal failure in surgical patients (Dudrick, Steiger, and Long), 180
Hypertrophy, experimental cardiac, inhibition by azathioprine (Levitsky et al.), 536
Hypoplastic right ventricle, pulmonary valvotomy in pulmonary atresia with (Moller et al.), 630
Hypothenar hammer syndrome: posttraumatic digital ischemia (Conn, Bergan, and Bell), 1122

I

Ileal bypass, partial in pediatric population, cholesterol reduction by (Buchwald et al.), 1101
Immunization, postburn, with polyvalent Pseudomonas antigen, treatment of experimental burn wound sepsis by (Nance et al.), 248
Immunochemical measurement of the vagal release of gastrin (Jaffe, McGuigan, and Newton), 196
Immunogenicity and induction of chemically induced sarcomas, effects of immunosuppression on (Fisher, Davis, and Mannick), 150
Immunological factors which influence response to immunotherapy in malignant melanoma (Morton et al.), 158
Immunosuppression, effects on induction and immunogenicity of chemically induced sarcomas (Fisher, Davis, and Mannick), 150
Immunosuppressive assay of antilymphoblast globulin in man: effect of dose, histocompatibility, and serologic response to horse gamma globulin (Simmons et al.), 62
Immunotherapy in malignant melanoma, immunological factors which influence response to (Morton et al.), 158
Implantation, permanent, of atrial pacemaker, technique for (Nusbaum and Levit), 916
Infarction, mesenteric, and strangulation of shorter intestinal lengths, value of leukocyte counts in recognition of: experimental study (Ghanem et al.), 635
myocardial, acute, surgery for: coronary flow and heart work during total circulatory support (Skinner et al.), 128
Infected aortofemoral arterial prosthesis, treatment of (Diethrich et al.), 1044
Infection(s): cause of acute peptic ulceration in hypersecreting animals (Douglass, Falk, and LeVeen), 827
postoperative, in 1,136 consecutive cardiac operations (Baffes et al.), 791
severe, and starvation, carnitine levels in: possible key to prolonged catabolic state (Border et al.), 175
wound, based on quantitative bacteriology of biliary tract, endogenous source for (Robson, Bogart, and Heggers), 471
Inflammatory carcinoma of breast treated by bilateral adrenalectomy (Yonemoto et al.), 461
Injury, contribution of protein to calorie expenditure following (Duke et al.), 168
Instruction, surgical, use of teaching examinations in (Rush and Jewell), 165
Insulin response, serum, in hemorrhagic shock in baboons (Moss et al.), 34
Intestinal lengths, shorter, strangulation of, and mesenteric infarction, value of leukocyte counts in recognition of: experimental study (Ghanem et al.), 635

Intracaval filter, removable, for prevention of pulmonary embolism: early experience with use of Eichelter catheter in patients (Williams and Schenk), 999
Intrahepatic biliodigestive anastomoses in dogs (de Boer, Downie, and Archibald), 646
Intramural hematomas of alimentary tract in children (Stewart, Byrd, and Schuster), 550
Intravascular coagulation—reality or myth? (Attar et al.), 27
Intravenous antithymocyte globulin, large-dose, in primates and man, experience with (Cosimi et al.), 54
  essential amino acids and hypertonic glucose, treatment with: renal failure in surgical patients (Dudrick, Steiger, and Long), 180
Ischemia, digital, posttraumatic: hypothenar hammer syndrome (Conn, Bergan, and Bell), 1122
  hepatic, effects on coagulation in primates: application to liver transplantation (Dinbar, Rangel, and Fonkalsrud), 269
  mesenteric: cause of increased gastric blood flow, hyperacidity, and acute gastric ulceration (Boley et al.), 222

K

Kent, bundle of, identification and division for premature ventricular excitation and supraventricular tachycardia (Sealy, Boineau, and Wallace), 1009
Kidney cell and leukocyte phenotyping, selection of allograft recipients by (Kountz et al.), 69

L

Labeling, radioisotope, and automatic blood volume computer, comparative studies in 19 major orthopedic procedures: blood loss in orthopedic operations (Gardner), 489
Laparotomy, exploratory, possible adverse effect of: chronic active hepatitis (Hargrove), 771
Lavage, peritoneal, prolonged, in fecal peritonitis (Perkash et al.), 842
Letters to the Editors, 589, 924
Leukocyte counts, value in recognition of mesenteric infarction and strangulation of shorter intestinal lengths: experimental study (Ghanem et al.), 635
  and kidney cell phenotyping, selection of allograft recipients by (Kountz et al.), 69
Ligation, caval, late results of (Piccone et al.), 980
  pancreatic duct, or small bowel resection, influence of dietary fat on gastric secretory response to (Landor, Wild, and Behringer), 831
Liquid-liquid oxygenator utilizing oxygen-saturated inert fluorocarbon for organ perfusion-preservation (Pitzele et al.), 1074
Liver, hamartomas of (Shah, Goldsmith, and Huvos), 778
  metabolic response to portacaval shunt (Smith and Mouzas), 341
  metastases, experimental, blood supply of: microcirculatory study of normal and tumor vessels with use of perfused silicone rubber (Lien and Ackerman), 334
Liver—Cont'd
  modification of nucleic acid synthesis in regenerating by azathioprine (Gonzalez, Krejczy, and Malt), 254
  normal and tumor vessels of, microcirculatory study with use of perfused silicone rubber: blood supply of experimental liver metastases (Lien and Ackerman), 334
  transplantation, application to: effects of hepatic ischemia on coagulation in primates (Dinbar, Rangel, and Fonkalsrud), 269
    coagulation abnormalities associated with (Howland et al.), 591
Lung, hydatid disease of, in children, late results of conservative surgical procedures (Tsakayannis, Pappis, and Moussatos), 379
Lymph flow, thoracic duct: theoretical concept (El-Gendi and Zaky), 786
  node dissection, extensive, effect of: end results of gastrectomy for gastric cancer (Mine et al.), 753
Lymphedema of the extremities, new aspects in surgical treatment of (Tsadakas, Rigas, and Chrysanthakopoulos), 419
Lymphocele, perirenal, as complication of renal homotransplantation (Madura, Dunbar, and Cerilli), 310

M

Malignancy, decrescent—gastric cancer (Crumb, Willetts, and Stephenson), 277
Malignant melanoma, immunological factors which influence response to immunotherapy in (Morton et al.), 158
Meckel's diverticulum, visualization with ^{99m}Tc-pertechnetate (Jewett, Duszynski, and Allen), 567
Medullary, adrenal, calcitonin-like factor: key to multiple endocrine neoplasia, type 2? (Kaplan et al.), 146
Melanoma, malignant, immunological factors which influence response to immunotherapy in (Morton et al.), 158
Mesenteric blood flow after hemorrhage in anesthetized and unanesthetized dogs (Roding and Schenk), 857
  infarction and strangulation of shorter intestinal lengths, value of leukocyte counts in recognition of: experimental study (Ghanem et al.), 635
  ischemia: cause of increased gastric blood flow, hyperacidity, and acute gastric ulceration (Boley et al.), 222
Metabolic and hemodynamic effects of secretin and pancreozymin on pancreas (Frogge, Hermreck, and Thal), 498
  response of liver to portacaval shunt (Smith and Mouzas), 341
Metastases, experimental, liver, blood supply of: microcirculatory study of normal and tumor vessels of liver with use of perfused silicone rubber (Lien and Ackerman), 334
Mitochondria in hemorrhagic shock, alterations in functional capacity of (Baue and Sayeed), 40
Mitochondrial energy-linked functions, effect of *E. coli* endotoxin on (Mela et al.), 541
Mucolysis, in vitro, case report including: Pseudomyxoma peritonei (Rosato and Seltzer), 301

XUM

Mucosal regeneration, esophageal, in dog, experimental study of. Barrett's esophagus: congenital or acquired? (Bremner, Lynch, and Reynolds), 209
Myocardial infarction, acute, surgery for: coronary flow and heart work during total circulatory support (Skinner et al.), 128
revascularization, direct and indirect: follow-up and appraisal (Urschel et al.), 1087

N

Necrotizing enterocolitis of premature infants (Dénes et al.), 558
Neointima formation, in vitro, in vascular prostheses lined by velour (Kalus), 528
Neonate, bowel perforation after exchange transfusion in: review of literature and report of case (Caralps-Riera and Cohn), 895
Neoplasia, endocrine, multiple, type 2, key to: medullary calcitonin-like factor (Kaplan et al.), 146
Nephrectomy, simultaneous bilateral posterior, in transplant recipients (Freed et al.), 468
Nervous functions, central, and hemorrhagic shock: spinal and spino-bulbo-spinal reflexes (Mori and Simeone), 870
system, non-central, animal, preparation and performance in (White et al.), 48
sympathetic, associated with diabetes mellitus, neuropathy of (Ozeran et al.), 953
Neurological complications of prevertebral surgery under regional anesthesia (Usubiaga, Kolodny, and Usubiaga), 304
Neuropathy of sympathetic nervous system associated with diabetes mellitus (Ozeran et al.), 953
Node, lymph, dissection, extensive, effect of: end results of gastrectomy for gastric cancer (Mine et al.), 753
Nonmetastatic extrapulmonary manifestations of bronchogenic carcinoma (Sealy), 906
Nucleic acid synthesis in regenerating liver by azathioprine, modification of (Gonzalez, Krejczy, and Malt), 254

O

Obstruction, balloon, in aortic surgery, elective use of (Robicsek, Daugherty, and Mullen), 774
Occluder, aortic: new instrument (Nobis), 805
Occlusion, transient femoral artery, clinical and biochemical observations of the effect in man (Fisher, Fogarty, and Morrow), 323
Occlusive disease, femoral-popliteal, nonreversed saphenous vein bypass for (Connolly and Stemmer), 602
Omphalocaval shunt: new procedure for portal decompression (Sobel et al.), 456
Open-heart surgery, prevention of air embolism during: study of role of trapped air in left ventricle (Taber, Maraan, and Tomatis), 685
-skin grafting, plastic drapes in (Rybka and Paletta), 585
Organ perfusion-preservation, liquid-liquid oxygenator utilizing oxygen-saturated inert fluorocarbon for (Pitzele et al.), 1079
Orthopedic operations, blood loss in: comparative studies in 19 major orthopedic procedures utilizing radioisotope labeling and an automatic blood volume computer (Gardner), 489
Orthopedic—Cont'd
procedures, 19 major, comparative studies utilizing radioisotope labeling and automatic blood volume computer: blood loss in orthopedic operations (Gardner), 489
Oxygen, affinity of hemoglobin for: its control and in vivo significance (Miller et al.), 187
-saturated inert fluorocarbon for organ perfusion preservation, liquid-liquid oxygenator utilizing (Pitzele et al.), 1079
toxicity, pulmonary, in experimental hemorrhagic shock (Greenfield, McCurdy, and Coalson), 662
Oxygenator, liquid-liquid, utilizing oxygen-saturated inert fluorocarbon for organ perfusion-preservation (Pitzele et al.), 1079

P

Pacemaker, atrial, technique for permanent implantation of (Nusbaum and Levit), 916
catheter, stubborn (Wallace, Sherafat, and and Blakemore), 914
Palliative surgery of infants with cyanotic congenital heart disease (Edwards and Bargeron), 931
Pancreas, metabolic and hemodynamic effects of secretin and pancreozymin on (Frogge, Hermreck, and Thal), 498
Pancreatic duct ligation or small bowel resection, influence of dietary fat on gastric secretory response to (Landor, Wild, and Behringer), 831
Pancreatitis, duodenal pressure as factor in cause of (Rosato, Cowan, and Rosato), 837
Pancreozymin and secretin, effects, metabolic and hemodynamic, on pancreas (Frogge, Hermreck, and Thal), 498
Pathophysiology, acute respiratory, after hemorrhagic shock (Bryant, Trinkle, and Dubilier), 512
Peptic ulceration, acute, in hypersecreting animals, cause of: infection (Douglass, Falk, and LeVeen), 827
Perforation, bowel, after exchange transfusion in neonate: review of literature and report of case (Caralps-Riera and Cohn), 895
Perfusion-preservation, organ, liquid-liquid oxygenator utilizing oxygen-saturated inert fluorocarbon for (Pitzele et al.), 1079
Pericardium for esophagoplasty in congenital esophageal stenosis, use of (Vidne and Levy), 389
Perirenal lymphocele as complication of renal homotransplantation (Madura, Dunbar, and Cerilli), 310
Peristaltic bypass type of heart assist device: acute hemodynamic studies (Takano et al.), 676
Peritoneal lavage, prolonged, in fecal peritonitis (Perkash et al.), 842
Peritonitis, fecal, prolonged peritoneal lavage in (Perkash et al.), 842
(sepsis), acute experimental, blood-borne factors in pulmonary response to (Farrington et al.), 136
Pharmacologic quantitation of cardiac sympathetic reinnervation (Ebert and Sabiston), 123
Phenotyping, leukocyte and kidney cell, selection of allograft recipients by (Kountz et al.), 69
Phrenic nerve, further experience with electrical stimulation of: electrically induced fatigue (Sato et al.), 817

Plastic drapes in open-skin grafting (Rybka and Paletta), 585
Pneumonectomy, modern, fathers of: Edward Archibald and William Rienhoff, Jr. (White), 397
Polyvalent Pseudomonas antigen, treatment of experimental burn wound sepsis by postburn immunization with (Nance et al.), 248
Popliteal aneurysms (Wychulis, Spittell, and Wallace), 942
site of origin of the hormone responsible for gastric hypersecretion associated with (Orloff et al.), 202
Portacaval shunt, metabolic response of liver to (Smith and Mouzas), 341
decompression, new procedure for: omphalocaval shunt (Sobel et al.), 456
hypertension, azygos circulation time and mechanism of varix rupture in (Hassab), 442
sinusoidal (Kluge, Sommerschild, and Flatmark), 294
Postsplenectomy drainage and its significance, observations on (Reynolds), 783
Preservation, perfusion-, organ, liquid-liquid oxygenator utilizing oxygen-saturated inert fluorocarbon for (Pitzele et al.), 1079
Presidential address (Society of University Surgeons): A report on the role of economic motivation in the performance of medical school faculty (Maloney), 1
(Society for Vascular Surgery): Palliative surgery of infants with cyanotic congenital heart disease (Edwards and Bargeron), 931
Pressure, duodenal, as factor in cause of pancreatitis (Rosato, Cowan, and Rosato), 837
Prevertebral surgery under regional anesthesia, neurological complications of (Usubiaga, Kolodny, and Usubiaga), 304
Probit analysis of burn deaths in developing country (Ramirez et al.), 813
Prosthesis(es), infected aortofemoral arterial, treatment of (Diethrich et al.), 1044
vascular, lined by velour, in vitro neointima formation in (Kalus), 528
Prosthetic cardiac valves, in vivo cinephotographic analysis of hydrodynamics of (Padula et al.), 1018
Protein, contribution to calorie expenditure following injury (Duke et al.), 168
Pseudomonas antigen, polyvalent, treatment of experimental burn wound sepsis by postburn immunization with (Nance et al.), 248
Pseudomyxoma peritonei: case report including in vitro mucolysis (Rosato and Seltzer), 301
Pulmonary atresia with hypoplastic right ventricle, pulmonary valvotomy in (Moller et al.), 630
embolism in postoperative patient, prospective analysis of (Allgood et al.), 116
removable filter for prevention of: early experience with use of Eichelter catheter in patients (Williams and Schenk), 999
fat embolism and hyperlipidemia in dogs with *E. coli* bacteremia (Groves et al.), 656
function following penetrating pulmonary injury with recommendations for therapy, analysis of (Proctor et al.), 92
injury, penetrating, analysis of pulmonary function following, with recommendations for therapy (Proctor et al.), 92
Pulmonary—Cont'd
oxygen toxicity in experimental hemorrhagic shock (Greenfield, McCurdy, and Coalson), 662
response to sepsis (acute experimental peritonitis), blood-borne factors in (Farrington et al.), 136
valve autograft, aortic valve replacement with: indications and surgical technique (Gonzelez-Lavin, Geens, and Ross), 450
valvotomy in pulmonary atresia with hypoplastic right ventricle (Moller et al.), 630
Pulsatile cardiopulmonary bypass: clinical evaluation (Trinkle et al.), 1074
Pump, blood, efficient, compact, for assisted circulation (Bernstein et al.), 105
Pumping, heart, continuous prolonged artificial, device facilitating (Akutsu, Takagi, and Farish), 369
Purification, forced flow electrophoretic, of anti–human antilymphoblast globulin (Moberg et al.), 862
Pyloroplasty, treatment of benign gastric ulcer by segmental gastric resection with and without (Amdrup, Nielsen, and Jensen), 759
vagotomy-, and vagotomy-antrectomy, current reflections on (editorial) (Herrington), 587

R

Radioisotope labeling and automatic blood volume computer, comparative studies in 19 major orthopedic procedures: blood loss in orthopedic operations (Gardner), 489
Radiotherapy, hepatic lobectomy, and chemotherapy for hepatoblastoma in an infant: report of survival (Hermann and Lonsdale), 383
Reflexes, spinal and spino-bulbo-spinal: hemorrhagic shock and central nervous functions (Mori and Simeone), 870
spino-bulbo-spinal reflexes: hemorrhagic shock and central nervous functions (Mori and Simeone), 870
Rebreathing techniques in surgical patients, determination of ventilatory insufficiency by mixed venous carbon dioxide measurement using (Baue, Hiremath, and Blakemore), 477
Recipients, allograft, selection by leukocyte and kidney cell phenotyping (Kountz et al.), 69
sensitized canine, humoral antibodies and coagulation mechanisms in accelerated or hyperacute rejection of renal homografts in (Simpson et al.), 77
transplant, simultaneous bilateral posterior nephrectomy in (Freed et al.), 468
Reconstruction, renal artery, new method of (Belzer et al.), 619
Reconstructive procedures, 96 aortoiliac, results in: preoperative angiographic and functional classifications used as prognostic guides (Imparato et al.), 610
Reinnervation, cardiac sympathetic, pharmacologic quantitation of (Ebert and Sabiston), 123
Rejection, accelerated or hyperacute, of renal homografts in sensitized canine recipients, humoral antibodies and coagulation mechanisms in (Simpson et al.), 77
renal allograft, simulated by arterial stenosis (Simmons et al.), 800

XUM

Renal allograft function and test skin grafts in human subjects genotyped for HL-A, correlations of (Seigler et al.), 86
rejection simulated by arterial stenosis (Simmons et al.), 800
arteries, new techniques in treatment of extensive fibromuscular disease involving (Fry, Brink, and Thompson), 959
artery reconstruction, new method of (Belzer et al.), 619
failure in surgical patients. Treatment with intravenous essential amino acids and hypertonic glucose (Dudrick, Steiger, and Long), 180
homografts in sensitized canine recipients, humoral antibodies and coagulation mechanisms in accelerated or hyperacute rejection of (Simpson et al.), 77
homotransplantation, perirenal lymphocele as complication of (Madura, Dunbar, and Cerilli), 310
Replacement, aortic valve: new techniques, hydrodynamics, and clinical results (Messmer et al.), 1026
arterial and venous, use of small-diameter Dacron grafts with wall-bonded heparin for: canine studies and preliminary clinical experience (Najjar and Gott), 1053
venous and arterial, use of small-diameter Dacron grafts with wall-bonded heparin for: canine studies and preliminary clinical experience (Najjar and Gott), 1053
Resection, massive small bowel, in the beagle, including laboratory data in severe undernutrition (Cuthbertson et al.), 698
segmental gastric, with and without pyloroplasty, treatment of benign gastric ulcer by (Amdrup, Nielsen, and Jensen), 759
small bowel, or pancreatic duct ligation, influence of dietary fat on gastric secretory response to (Landor, Wild, and Behringer), 831
Research, education, and assessment system, computer-based clinical, to facilitate continuing education in the care of the critically ill patient (Siegel et al.), 238
Respiratory pathophysiology, acute, after hemorrhagic shock (Bryant, Trinkle, and Dubilier), 512
Revascularization, direct and indirect myocardial: follow-up and appraisal (Urschel et al.), 1087
Rienhoff, William, Jr., and Edward Archibald: fathers of the modern pneumonectomy —an historical footnote (White), 397
Roentgenological demonstration of anorectal anomalies, new method of (Murugasu) 706
Rubber bands as replacement for rubber-shod clamps (Partington), 737
-shod clamps, rubber bands as replacement for (Partington), 737
Rupture, spontaneous, of esophagus: review with reports of six cases (Bennett, Deveridge, and Wright), 766
varix, in portal hypertension, azygos circulation time and mechanism of (Hassab), 442

S

Saphenous vein bypass, reversed, for femoral-popliteal occlusive disease (Connolly and Stemmer), 602
Sarcomas, chemically induced, effects of immunosuppression on induction and immunogenicity of (Fisher, Davis, and Mannick), 150
Secretin and pancreozymin, effects, hemodynamic and metabolic, on pancreas (Frogge, Hermreck, and Thal), 498
Secretory response, gastric, to pancreatic duct ligation or small bowel resection, influence of dietary fat on (Landor, Wild, and Behringer), 831
Sepsis (acute experimental peritonitis), blood-borne factors in the pulmonary response to (Farrington et al.), 136
experimental burn wound, treatment with post-burn immunization with polyvalent Pseudomonas antigen (Nance et al.), 248
Serologic response, dose, and histocompatibility to horse gamma globulin, effect of: immunosuppressive assay of antilymphoblast globulin in man (Simmons et al.), 62
Serum glutamic oxalacetic transaminase activity in cholecystitis (Adams, Clermont, and Schwartz), 492
insulin response in hemorrhagic shock in baboons (Moss et al.), 34
Service(s), basic and clinical, surgical education as bridge between (editorial) (Peacock), 741
fee for, system (editorial) (Mueller), 745
Shock, endotoxin, hepatic ultrastructural response to (Rangel et al.), 503
experimental hemorrhagic, pulmonary oxygen toxicity in (Greenfield, McCurdy, and Coalson), 662
hemorrhagic, acute respiratory pathophysiology after (Bryant, Trinkle, and Dubilier), 512
alterations in functional capacity of mitochondria in (Baue and Sayeed), 40
in baboons, serum insulin response in (Moss et al.), 34
and central nervous functions: spinal and spino-bulbo-spinal reflexes (Mori and Simeone), 870
irreversible hemorrhagic, effect of coronary vasodilator on development of (Jones et al.), 356
Shunt, omphalocaval: new procedure for portal decompression (Sobel et al.), 456
physiologic, effect of ventilatory methods and patterns of (Ashbaugh), 99
portacaval, metabolic response of liver to (Smith and Mouzas), 341
site of origin of the hormone responsible for gastric hypersecretion associated with (Orloff et al.), 202
Silicone rubber, perfused, microcirculatory study of normal and tumor vessels of liver with use of: blood supply of experimental liver metastases (Lien and Ackerman), 334
Sinus origin, carotid, of adrenergic responses compromising effectiveness of artificial circulatory support (Harrison et al.), 20
Sinusoidal portal hypertension (Kluge, Sommerschild, and Flatmark), 294
Skin, open-, grafting, plastic drapes in (Rybka and Paletta), 585
Spinal and spino-bulbo-spinal reflexes: hemorrhagic shock and central nervous functions (Mori and Simeone), 870

Spino-bulbo-spinal and spinal reflexes: hemorrhagic shock and central nervous functions (Mori and Simeone), 870
Splenic abscess, the surgical significance of (Pickleman, Paloyan, and Block), 287
Starvation and severe infection, carnitine levels in: possible key to prolonged catabolic state (Border et al.), 175
Stenosis, arterial, renal allograft rejection simulated by (Simmons et al.), 800
congenital esophageal, use of pericardium for esophagoplasty in (Vidne and Levy), 389
Strangulation of shorter intestinal lengths and mesenteric infarction, value of leukocyte counts in recognition of: experimental study (Ghanem et al.), 635
Subclavian steal and compromised cephalic blood flow, effects on cerebral circulation (Eklöf and Schwartz), 431
Support, artificial circulatory, carotid sinus origin of adrenergic responses compromising effectiveness of (Harrison et al.), 20
total circulatory, coronary flow and heart work during: surgery for acute myocardial infarction (Skinner et al.), 128
Supraventricular tachycardia and premature ventricular excitation, identification and division of bundle of Kent for (Sealy, Boineau, and Wallace), 1009
Surgery for acute myocardial infarction: coronary flow and heart work during total circulatory support (Skinner et al.), 128
aortic, elective use of balloon obstruction in (Robicsek, Daugherty, and Mullen), 774
arterial, experiences with modified bovine carotid arteries in (Rosenberg et al.), 1064
department of, gross anatomy taught by (Halasz et al.), 231
some guidelines for advancement of (editorial) (Wangensteen), 928
open-heart, prevention of air embolism during: study of the role of trapped air in left ventricle (Taber, Maraan, and Tomatis), 685
palliative, of infants with cyanotic congenital heart disease (Edwards and Bargeron), 931
prevertebral, under regional anesthesia, neurological complications of (Usubiaga, Kolodny, and Usubiaga), 304
Surgical education as bridge between basic and clinical services (editorial) (Peacock), 741
undergraduate, panel discussion on: the surgeon's definition of a core (Jordan et al.), 403
instruction, use of teaching examinations in (Rush and Jewell), 165
patients, determination of ventilatory insufficiency by mixed venous carbon dioxide measurement using rebreathing techniques in (Baue, Hiremath, and Blakemore), 477
renal failure in: treatment with intravenous essential amino acids and hypertonic glucose (Dudrick, Steiger, and Long), 180
procedures, conservative, in hydatid disease of the lung in children, late results of (Tsakayiannis, Pappis, and Moussatos), 379
significance of splenic abscess (Pickleman, Paloyan, and Block), 287
Surgical—Cont'd
technique and indications: aortic valve replacement with pulmonary valve autograft (Gonzalez-Lavin, Geens, and Ross), 450
treatment of lymphedema of the extremities, new aspects in (Tsadakas, Rigas, and Chrysanthakopoulos), 419
Suture, new absorbable synthetic, in growing and adult primary vascular anastomoses: morphologic study (Dardik et al.), 1112
Sympathetic nervous system associated with diabetes mellitus, neuropathy of (Ozeran et al.), 953
reinnervation, cardiac, pharmacologic quantitation of (Ebert and Sabiston), 123
Syndrome, hypothenar hammer: posttraumatic digital ischemia (Conn, Bergan, and Bell), 1122
Turner's, with associated gastrointestinal hemorrhage: a case report (Schultz, Assimacopoulos, and Lillehei), 485
Synthetic suture, new absorbable, in growing and adult primary vascular anastomoses: morphologic study (Dardik et al.), 1112
System, "fee for service" (editorial) (Mueller), 745
full-time, revisited (editorial) (Ballinger), 919
sympathetic nervous, associated with diabetes mellitus, neuropathy of (Ozeran et al.), 953

T

Tachycardia, supraventricular, and premature ventricular excitation, identification and division of bundle of Kent for (Sealy, Boineau, and Wallace), 1009
^{99m}Tc-pertechnetate, visualization of Meckel's diverticulum with (Jewett, Duszynski, and Allen), 567
Teaching examinations, use in surgical instruction (Rush and Jewell), 165
Therapy, anticoagulant, significant complications of (Macon, Morton, and Adams), 571
Thoracic duct lymph flow: theoretical concept (El-Gendi and Zaky), 786
Thoracostomy set, simple emergency closed (Harrah and Wangensteen), 583
Thrombi, venous, after aortic cross-clamping, etiology of: electron microscopic study (Ashford), 846
Toxicity, pulmonary oxygen, in experimental hemorrhagic shock (Greenfield, McCurdy, and Coalson), 662
Tract, alimentary, in children, intramural hematomas of (Stewart, Byrd, and Schuster), 550
biliary, endogenous source for wound infections based on quantitative bacteriology of (Robson, Bogart, and Heggers), 471
Tracheoesophageal fistula, recurrent: diagnostic problem (Kafrouni, Baick, and Woolley), 889
Transfusion, exchange, in the neonate, bowel perforation after (Caralps-Riera and Cohn), 895
Transplant recipients, simultaneous bilateral posterior nephrectomy in (Freed et al.), 468
Transplantation, liver, application to: effects of hepatic ischemia on coagulation in primates (Dinbar, Rangel, and Fonkalsrud), 269
coagulation abnormalities associated with (Howland et al.), 591

Tumor and normal vessels of liver, microcirculatory study with use of perfused silicone rubber: blood supply of experimental liver metastases (Lien and Ackerman), 334
Turner's syndrome with associated gastrointestinal hemorrhage: a case report (Schultz, Asimacopoulos, and Lillehei), 485

U

Ulcer, benign peptic, treatment by segmental gastric resection with and without pyloroplasty (Amdrup, Nielsen, and Jensen), 759
Ulceration, acute gastric, increased gastric blood flow, and hyperacidity, cause of: mesenteric ischemia (Boley et al.), 222
acute peptic, in hypersecreting animals, cause of: infection (Douglass, Falk, and LeVeen), 827
Undergraduate surgical education, panel discussion on: the surgeon's definition of a core (Jordan et al.), 403
Undernutrition, severe, massive small bowel resection in the beagle, including laboratory data in (Cuthbertson et al.), 698
Urokinase, infused, fate of (Woodard, Day, and Silver), 692

V

Vagal release of gastrin, immunochemical measurement of (Jaffe, McGuigan, and Newton), 196
Vagotomy-antrectomy and vagotomy-pyloroplasty, current reflections on (editorial) (Herrington), 587
-pyloroplasty and vagotomy-antrectomy, current reflections on (editorial) (Herrington), 587
Valve(s), aortic, replacement: new techniques, hydrodynamics, and clinical results (Messmer et al.), 1026
with pulmonary valve autograft: indications and surgical technique (Gonzalez-Lavin, Geens, and Ross), 450
prosthetic cardiac, in vivo cinephotographic analysis of hydrodynamics of (Padula et al.), 1018
pulmonary, autograft, aortic valve replacement with: indications and surgical technique (Gonzalez-Lavin, Geens, and Ross), 450
Valvotomy, pulmonary, in pulmonary atresia with hypoplastic right ventricle (Moller et al.), 630
Varicose veins, influence of femoral vein dynamics on development of (Folse), 974
Varix rupture in portal hypertension, azygos circulation time and mechanism of (Hassab), 442
Vascular anastomoses, growing and adult primary, new absorbable synthetic suture in (Dardik et al.), 1112
clots, improved balloon catheter for removal of (Klieman), 806
peripheral, cannulation, new thin-walled nonkinking catheter for (Kolobow and Zapol), 625
prostheses lined by velour, in vitro neointima formation in (Kalus), 528
Vasodilator, coronary, effect on development of irreversible hemorrhagic shock (Jones et al.), 356
Vein(s) bypass, nonreversed saphenous, for femoral-popliteal occlusive disease (Connolly and Stemmer), 602
femoral, dynamics on development of varicose veins, influence of (Folse), 974
varicose, influence of femoral vein dynamics on development of (Folse), 974
Velour, in vitro neointima formation in vascular prostheses lined by (Kalus), 528
Venous and arterial replacement, use of small-diameter Dacron grafts with wall-bonded heparin for: canine studies and preliminary clinical experience (Najjar and Gott), 1053
carbon dioxide, mixed, measurement, using rebreathing techniques in surgical patients, determination of ventilatory insufficiency by (Baue, Hiremath, and Blakemore), 477
pressure and volume, canine, during hemorrhage, changes in (Kerr and Kirklin), 520
thrombi after aortic cross-clamping, etiology of: electron microscopic study (Ashford), 846
volume and pressure, canine, during hemorrhage, changes in (Kerr and Kirklin), 520
Ventilatory insufficiency by mixed venous carbon dioxide measurement using rebreathing techniques in surgical patients (Baue, Hiremath, and Blakemore), 477
methods and patterns of physiologic shunt, effect of (Ashbaugh), 99
Ventricular excitation, premature, and supraventricular tachycardia, identification and division of bundle of Kent for (Sealy, Boineau, and Wallace), 1009
function, left, and coronary blood flow, effect of left heart bypass on (Sato and Glenn), 314
Ventricle, hypoplastic right, pulmonary valvotomy in pulmonary atresia with (Moller et al.), 630
left, study of role of trapped air in: prevention of air embolism during open-heart surgery (Taber, Maraan, and Tomatis), 685

W

Wound(s), extremity, evaluation of local antibiotic instillation in (Seidenstein et al.), 809
infections based on quantitative bacteriology of biliary tract, endogenous source for (Robson, Bogart, and Heggers), 471
sepsis, experimental burn, treatment by postburn immunization with polyvalent Pseudomonas antigen (Nance et al.), 248

X

X-ray visualization, simultaneous, of the entire lower extremity arterial tree (distal aorta to foot) without a film changer (Moss and Wendth), 617

XUM
